* These investments are carried at a book value of ₹1.00

As on March 31, 2026, Kumardhubi Fireclay and Silica Works Ltd., Kumardhubi Metal Casting and Engineering Ltd., Tata Construction and Projects Limited and Andal East Coal Company Private Limited are under liquidation.

@ Equity investment in TRF Limited includes ₹5.79 crore for 37,53,275 equity shares and deemed equity component in respect of NCRPS issued by TRF.

$ Cost of unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

^ The Company has restricted access to returns associated with its ownership interest in the investment.

(i) The Company holds more than 50% of the equity share capital in TM International Logistics Limited. However, decisions in respect of activities which significantly affect the risks and rewards of these businesses, require unanimous consent of all the shareholders. This entity has therefore been considered as joint venture.

(ii) The Hon’ble National Company Law Tribunal (NCLT), Kolkata vide order dated April 5, 2019 has admitted the initiation of Corporate Insolvency Resolution Process (CIRP) in respect of Tayo Rolls Limited, a subsidiary of the Company.

(iii) Tata Steel Netherland ('TSN') and Tata Steel UK Limited ('TSUK'), both wholly owned subsidiaries of Tata Steel Europe Limited ('TSE'), which in turn is a wholly owned step-down subsidiary of the Company, are undertaking a transition towards de-carbonised operations and away from the current blast furnace-based production processes.

With respect to TSN, on December 19, 2024, the local Environmental Agency (EA) had sent a notice to Tata Steel Ijmuiden (TSIJ), a wholly owned subsidiary of TSN, on alleged non-compliances regarding certain aspects of the state of maintenance and continuing operation of its Coke and Gas Plant (CGP) 2 for which the EA gave TSIJ a period of 12 months to remedy the alleged non-compliances. TSN also received notices alleging non-compliance and orders under penalty based on the local EA's measurements of exceedances of emissions of substances versus certain prescribed limits for both Coke Ovens (CGP 1 and 2). The EA and the local Province of North Holland (Province) have issued a letter on April 23, 2026 to TSN, indicating their intention to revoke operating permits and trigger an early closure of CGP 1 and 2. TSN has made a detailed assessment and shared with the EA and the Province a timeline which is necessary to ensure a safe, responsible and controlled closure process. The timing, nature and contents of a decision that may be issued by the EA and the Province, is currently unclear.

NOTES

forming part of the standalone financial statements

6. Investments (Contd.)

[Item No. I(g)(i) and II(b)(i), Page F24]

TSN is also exploring all options including legal recourse to ensure that the closure process is managed with due care and prudence. Given the significance of the CGP facilities to TSN's operations and the risks, challenges and uncertainties associated with the continued operations of both the CGP units, there exists a material uncertainty surrounding the impact of such adversities on the financial stability of TSN as an entity. The financial results of TSN as an entity have accordingly been prepared on a going concern basis while recognising the aforesaid material uncertainty.

On September 29, 2025, the Government of the Netherlands and the province of North Holland, the Company and TSN have agreed an intended framework for the integrated project in TSN and signed a non-binding Joint Letter of Intent ('JLoI'). The JLoI sets out the aims and objectives of the parties for the first phase of transition to low CO_2 steel production and to improve the healthy living environment around the IJmuiden site, including specific beyond legal measures to reduce the contribution of TSN's operations to potential environmental pollution. The JLoI also includes the financial and policy support required for the integrated project. TSN's transition plan considers that the policy environment in the Netherlands and EU is supportive to the European steel industry.

TSN’s plans for its integrated de-carbonisation and environmental improvement project are part of the non-binding Joint Letter of Intent executed with the Government of Netherlands and Province of North Holland in September 2025.

The financial results of TSUK have also been prepared on a going concern basis, considering the UK Government funding being available under the Grant Funding Agreement (GFA) signed with the UK Government and a commitment to infuse equity into TSUK by the Company.

Considering the above, the fair value of investments held by the Company in T Steel Holdings Pte. Ltd. ('TSH’), a wholly owned subsidiary of the Company is largely dependent on the operational and financial performance of TSE which in turn primarily derives its value based on fair value models for the TSUK and TSN businesses. The fair value computation uses cash flow forecasts based not only on the most recent financial budgets, but more importantly strategic forecasts and future projections taking the analysis on sustainable cash flow reflecting average steel industry conditions (between cyclical peaks and troughs of profitability) out into perpetuity based on a steady state. If any of the key assumptions change, the fair value of the relevant business would increase/decrease and that could lead to change in the carrying amount of investments in TSH. Key assumptions for the fair value model relate to expected changes to selling prices and raw material & conversion costs, EU steel demand, energy costs, transformation programme with improvement initiatives/cost rationalisation (including employee cost), exchange rates, the amount of capital expenditure needed for decarbonisation, changes to EBITDA resulting from producing and selling steel with low embedded CO_2 emissions, levels of government support for decarbonisation, phasing of decommissioning of legacy assets as well as the commissioning of new low CO_2 production facilities, tariff regimes and discount rates. The projections are based on both the past performance and the expectations of future performance assumptions therein. The Company estimates discount rates using post-tax rates that reflect the current market rates adjusted to reflect the way the European Union steel market would assess the specific risk. The weighted average post-tax discount rates used for discounting the cash flows projections is in the range of **8.15% - 9.94%** (March 31, 2025: 8.20% to 9.56%). Beyond the specifically forecasted period, a growth rate in the range of **Nil – 2.00%** (March 31, 2025: Nil - 2.00%) is used to extrapolate the cash flow projections. This rate does not exceed the average long-term growth rate for the relevant markets.

The Company has conducted sensitivity analysis on the fair value including sensitivity in respect of discount rates. An increase/decrease of 25 basis points in discount rate would result in an decrease/increase in fair value of investments in TSH by **₹3,921.00** crore (March 31, 2025: ₹4,120.00 crore) and **₹4,118.00 crore** (March 31, 2025: ₹4,464.00 crore) respectively.

Based on the above fair value assessment of its investments held in TSH, the Company has recognised a fair value loss through Other Comprehensive Income of **₹4,369.59** crore during the year ended March 31, 2026 in the standalone financial statements. (2024-25: loss ₹24,870.00 crore).

NOTES

6. Investments (Contd.)

[Item No. I(g)(i) and II(b)(i), Page F24]

(iv) The Company, through erstwhile Tata Steel Long Products Limited ("TSLP") now merged with the Company, on July 4, 2022, completed the acquisition of Neelachal Ispat Nigam Limited ("NINL").

The fair value of equity exposure in NINL has been assessed using cash flow forecasts based on the most recently approved business plan for financial year 2026-27. Beyond financial year 2026-27, the cash flow forecasts is based on strategic forecasts which cover a period of nine years and future projections taking the analysis out to perpetuity. It also includes capital expenditure for capacity expansion of steel making facilities from the current 1.10 MTPA to 5.90 MTPA by financial year 2031-32 as well as estimated EBITDA changes due to implementation of the expansion strategy and operating the assets.

Key assumptions to the cash flow model are changes to selling prices and raw material costs, steel demand, amount of capital expenditure needed for expansion of the existing facilities, EBITDA and post-tax discount rate of **12.50%** (March 31, 2025: 13.00%). The estimates are based on management's best estimate of implementing the expansion strategy.

For the cash flow model, a terminal growth rate of **4.00%** (March 31, 2025: 4.00%) has been used to extrapolate the cash flows beyond the specifically forecasted period.

The outcome of the fair value assessment for equity investments held in NINL has resulted in a fair value gain through other comprehensive income of **₹400.65** crore during the year ended March 31, 2026 (2024-25: ₹1,026.98 crore).

The management has conducted sensitivity analysis including sensitivity in respect of discount rates, on the fair value assessment of the carrying value of investments held in NINL. An increase/decrease of 25 basis points in the discount rate would result in an decrease/increase in fair value of investments by **₹1,226.00** crore (March 31, 2025: ₹912.00 crore) and **₹1,302.00** crore (March 31, 2025: ₹970.00 crore) respectively.

(v) The fair value of equity exposure in Tata Steel Downstream Products Limited (TSDPL) has been assessed using discounted cash flow forecasts. Key assumptions to the cash flow model are EBITDA and post-tax discount rate of **13.90%** (March 31, 2025: 14.00%). For the cash flow model, a terminal growth rate of **4.00%** (March 31, 2025: 3.00%) has been used to extrapolate the cash flows beyond the specifically forecasted period.

The outcome of the fair value assessment for equity investments held in TSDPL has resulted in a fair value gain through other comprehensive income of **₹16.46** crore during the year ended March 31, 2026 (2024-25: gain of ₹172.58 crore).

The management has conducted sensitivity analysis including sensitivity in respect of discount rates, on the fair value assessment of the carrying value of investments held in TSDPL and that results in no significantly different estimate of fair value.

(vi) The fair value of equity exposure in Tata Steel Utilities and Infrastructure Services Limited (TSUISL) has been assessed using discounted cash flow forecasts. Key assumptions to the cash flow model are EBITDA and post-tax discount rate of **14.30%** (March 31, 2025: 15.00%). For the cash flow model, a terminal growth rate of **4.00%** (March 31, 2025: 4.00%) has been used to extrapolate the cash flows beyond the specifically forecasted period.

The outcome of the fair value assessment for equity investments held in TSUISL has resulted in a fair value gain through other comprehensive income of **₹813.83** crore during the year ended March 31, 2026 (2024-25: gain of ₹75.77 crore).

The management has conducted sensitivity analysis including sensitivity in respect of discount rates, on the fair value assessment of the carrying value of investments held in TSUISL and that results in no significantly different estimate of fair value.

The Company believes that key assumptions which have been used to undertake the valuation for the above investments referred in note (iii) to (vi) in its balance sheet as of March 31, 2026, represent the best view of the future economic landscape and operating model at this time. Going forward, the key assumptions would be kept under review and relevant changes, if any, will be reflected in the financial statements from time to time.

(ix) Tata Steel BSL Limited (TSBSL) (formerly known as Bhushan Steel Limited) was being shown as promoter of Jawahar Credit & Holdings Private Limited ("JCHPL") and M/s Bhushan Capital & Credit Services Private Limited ("BCCSPL"). These entities were connected to the previous management of Bhushan Steel Limited. The Company has written to JCHPL, BCCSPL and the Registrar of Companies (National Capital Territory of Delhi & Haryana) intimating that TSBSL should not be identified as promoter of these companies. In view of the same, the Company currently does not exercise significant influence on these entities, and hence, these have not been considered as associates.

(x) The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities ("Intermediaries") with the understanding (whether recorded in writing or otherwise) that the Intermediaries shall, whether, directly or indirectly lend or invest in other persons/entities identified in any manner whatsoever by or on behalf of the Company ('Ultimate Beneficiaries') or
