Leadership Indicators

1. Awareness programmes conducted for value chain partners on any of the principles during the financial year:

Tata Steel promotes key issues related to the 9 Principles of the National Guidelines for Responsible Business Conduct among its value chain partners through three main segments: Safety, Ethics, and Supply Chain Responsibility.

a. **Safety:** All individuals accessing Tata Steel sites receive mandatory safety training at Safety Leadership Development Centre (**'SLDC'**) and e-learning modules. Vendor partners also undergo skill certification training.

b. **Ethics:** Vendor partners participate in awareness sessions on the Anti-Bribery and Anti-Corruption Policy, Tata Code of Conduct, and Prevention of Sexual Harassment Policy.

c. **Supply Chain Responsibility:** Tata Steel continues to strengthen awareness and capability-building initiatives for its value chain partners through structured sessions under its Vendor Capability Advancement Programme (VCAP) focused on ethics, integrity, transparency, quality and responsible business conduct. During FY2025-26, 29 such awareness sessions were conducted for its value chain partners covering 2,711 supplier partners. Tata Steel also conducted targeted awareness and capability development programmes on RSCP and SA8000:2014, covering 885 supplier partners in FY2025-26. These initiatives collectively reinforce Tata Steel's commitment to fostering a transparent, ethical, and sustainability-oriented value chain by ensuring that suppliers clearly understand expectations, obligations, and best practices under its responsible business conduct framework.

TSN is developing and updating its human-rights and responsible-sourcing policy framework, reinforcing risk-based due diligence, transparency requirements and grievance mechanisms to support continuous improvement across the value chain.

TSUK strengthened responsible sourcing by implementing risk-based supply-chain due diligence and supplier rationalisation, ensuring critical suppliers aligned with the Company's ethical, sustainability, and transparency commitments.

Tata Steel Thailand established the TSTH Supplier Code of Conduct, covering ESG practices and aligning with Stock Exchange of Thailand (SET) Sustainability Assessment.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No). If yes, provide details of the same.

Yes, Tata Steel has a Tata Code of Conduct applicable to all members of its Board, which mandates that Directors always act in the best interests of the Company and ensure that any other business or personal affiliations do not create a conflict with the Company's operations. Any actual or potential conflict of interest must be promptly disclosed by the concerned Director, and necessary approvals must be obtained in accordance with applicable laws and Company policies.

The Company also obtains an annual declaration from all Board members and employees confirming compliance with the Code of Conduct, including its provisions relating to conflicts of interest.

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe.

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY2025-26	FY2024-25	Details of improvements in environmental and social impacts
R&D[1]	100 (₹ 1,456 crore)	100 (₹ 916 crore)	The cost encompasses all expenditures, including those on environmental and sustainability initiatives such as low-emission transition, minimising freshwater consumption, maximising value from waste, setting up of EAFs at Ludhiana and TSUK, improving energy efficiency, fostering a circular economy, and developing solutions for utilising low-grade raw materials.
Capex	44	37	Includes investments in low CO_2 emission transition, air emission (SOx, NOx and dust) reduction, water conservation and effluent treatment, solid waste utilisation, improvement of safety and employee welfare initiatives.

[1]100% of Tata Steel's R&D spend is aligned with one or more of the 9 Principles of the National Guideline for Responsible Business Conduct.

2 a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes. Tata Steel has established formal and structured procedures for sustainable sourcing anchored in its RSCP which was revised in FY2025-26 and integrated with the Tata Steel Business Associate Code of Conduct (**'TSBACoC'**). All suppliers are required to accept the RSCP requirements as part of the onboarding process. The Company has also introduced its Sustainable Procurement (**'SP'**) Framework, which sets out a clear process for embedding sustainability considerations in procurement decision making. Implementation of the Sustainable Procurement Framework has commenced with core raw material categories and will be progressively expanded across additional procurement categories in the coming years.

TSN applies the RSCP as the main framework for responsible sourcing. The RSCP sets expectations for suppliers and value chain partners across key areas, including fair business practices, health and safety, human rights, environmental protection and local community considerations. In FY2025-26,TSN further strengthened its responsible sourcing and due diligence approach. This includes the development of a more structured, risk-based assessment of selected suppliers and materials, the use of supplier questionnaires, review of available supplier documentation, and further alignment with recognised due diligence expectations, including the OECD due diligence framework and upcoming European regulatory requirements.

TSUK reinforced responsible procurement by requiring supplier adherence to its Responsible Sourcing and Modern Slavery Policies and Code of Conduct, strengthening risk-based onboarding, expanding supplier engagement, and advancing a new vendor-qualification system aligned with health and safety, ethics, environment, human rights, and community priorities.

b. If yes, what percentage of inputs were sourced sustainably?

Tata Steel requires all suppliers to sign its Business Associate Code of Conduct during registration which focuses on key areas of compliance with respect to applicable laws, prevention of bribery and corruption, maintenance of high standards for health and safety, human rights, environmental protection, safeguarding the Company's assets, ethical third-party representation, violation reporting mechanisms, and avoidance of conflicts of interest. In India, 100% of our suppliers commit to the RSCP, which in FY2025-26 was revised and integrated with the Tata Business Associate Code of Conduct. The Sustainable Procurement Framework has also been introduced and will be progressively expanded across categories in the coming years to further strengthen sustainable sourcing practices. In addition, the Sustainable Procurement Framework defines the criteria for vendor selection which include ESG aspects. Sustainable Procurement Framework has been implemented in few categories of Ferro Alloys and Metals.

TSN has procedures in place for sustainable sourcing through the RSCP and related due diligence activities and is further strengthening its risk-based responsible sourcing and supplier due diligence approach. In the UK, all suppliers are made aware of the Responsible Procurement Policy.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Steel typically lasts 25 to 30 years, making it perfect for a circular economy. Its durability and versatility allow widespread reuse and life extension. Steel is easily recyclable due to its magnetic properties and can be produced using low-emission technologies. It is genuinely cradle-to-cradle, with end-of-life steel seen as an input rather than waste. Tata Steel maximises scrap usage, reusing internal scrap and sourcing external scrap, demonstrating a commitment to sustainable practices. In FY2025-26, Tata Steel recycled about 4.6 million tonnes of scrap (~1.5 million tonnes internal and ~3.1 million tonnes external). Tata Steel also safely recycles plastic, e-waste, and hazardous waste by working with authorised recyclers and filing returns with relevant statutory bodies.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, in India, Tata Steel has obtained the requisite approvals in line with applicable regulations, including the Plastic Waste EPR Registration Certificate under the 'Brand Owner' and 'Importer' categories for applicable sites as per the Plastic Waste Management Rules, 2016 and amendments issued thereafter. The Company has also secured the Battery Waste EPR Registration Certificate under the 'Producer' category for its Jamshedpur, Meramandali, and Khopoli locations in accordance with the Battery Waste Management Rules, 2022. Additionally, Tata Steel holds the Hazardous Waste Authorisation for all relevant sites as mandated by the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.

At TSN, Dutch EPR (UPV) requires producers to collect, recycle, and process product waste, as regulated in the Environmental Management Act for specific products like batteries, packaging, and car tyres. EPR applies to TSUK, mainly concerning steel packaging.

Leadership Indicators

1. **Has the entity conducted Life Cycle Perspective/Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format.**

   Yes. Tata Steel conducts Life Cycle Assessments (LCA) for a wide range of its products across multiple sites, using the worldsteel methodology aligned with ISO 14044:2006 and ISO 14040:2006. The Company has also extended its boundary to cradle to gate LCAs in collaboration with customers. These assessments provide deeper visibility into product level environmental impacts, helping Tata Steel identify improvement opportunities.

   TSUK extensively uses LCA to inform product disclosures and drive decarbonisation and circular economy outcomes, while demonstrating industry leadership through award-winning methodology development, policy engagement, and global standard setting for harmonised sustainability and carbon accounting.

A summary of key products for which Tata Steel conducts LCA, across various geographies, is provided below:

Entity	NIC Code	Name of product/ service	Turnover (₹ Cr)	% of total turnover (of the respective entity)	Boundary for which the life cycle perspective / assessment was conducted	Whether conducted by independent external agency	Results communicated in public domain
TSL	24103	Slab	1,39,720	4	Cradle-to-gate	No	Yes https://www.environdec.com/library/epd21266
	24104	Ferro Chrome		2			Yes https://environdec.com/library/epd6068
	24105	Hot Rolled, Cold Rolled Closed Annealed, Galvanised Steel & Rebar		65			Yes https://www.environdec.com/library/epd6474 https://www.environdec.com/library/epd21267 https://environdec.com/library/epd21268 https://environdec.com/library/epd5018

	24109	Building Products and Organic Coated		27			Yes https://www.tatasteeluk.com/construction/sustainability/epd/pre-finished-steel https://www.tatasteeluk.com/construction/sustainability/epd/lintels
TSTH	24109	Rebar	7,198	64	Cradle-to-gate	Yes, verified by third party	Yes https://www.greenbooklive.com/search/scheme.jsp?id=300 https://eco-portal.eco-platform.org/

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products/services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

As identified in the LCA, no significant social or environmental concerns and risks arise from the disposal of the Company's products and services. For the Company's Indian operations, finished products contributing to ~76% of revenues are covered under LCA. Tata Steel's overseas entities assess their products under LCA with 97% coverage in TSN, 96% coverage in TSUK, and 64% coverage in TSTH.

However, steel production is an energy-intensive process with a substantial emission footprint. These anthropogenic CO_2 emissions are a critical source of global warming. Therefore, Tata Steel feels a strong sense of responsibility and has committed to achieve Net Zero emissions across all operations by 2045. *For more details, please refer to the Climate Change Report section in Tata Steel's Integrated Report for FY2025-26.*

3. **Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).**

Indicate input material	Recycled or re-used input material to total material (%)	
	FY2025-26	FY2024-25
Process solid waste like slag, scrap, etc.	5.5	5.8

Note: *Includes waste generated from process and reutilised in the process and excludes waste/by-product sold to third parties.*

4. **Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed - plastic, e-waste, hazardous, others.**

In metric tonnes	FY2025-26			FY2024-25		
	Reused	Recycled	Safely disposed	Reused	Recycled	Safely disposed
Plastics (incl. packaging)	NA			NA		
E-waste						
Hazardous waste						
Other waste						

The Company does not have any specific product to reclaim at the end of life.

5. **Reclaimed products and their packaging materials (as percentage of products sold) for each product category.**

Tata Steel is a producer of steel, and steel scrap is not considered waste but is used as input for further steelmaking and is a globally traded commodity. Accordingly, this question is not applicable to Tata Steel's products.

Principle 3: Businesses should respect and promote the well-being of all employees, including those in their value chains.

Essential Indicators

1.a. Details of measures for the well-being of employees:

Category	Total (A)	% of employees covered by									
		Health Insurance[1,2]		Accident Insurance		Maternity Benefits		Paternity Benefits		Day Care Facilities[3]	
		Number (B)	% (B/A)	Number (C)	% (C/A)	Number (D)	% (D/A)	Number (E)	% (E/A)	Number (F)	% (F/A)
Permanent Employees											
Male	64,211	64,211	100	64,211	100	Not Applicable		61,615	96	59,761	93
Female	6,720	6,720	100	6,720	100	6,720	100	Not Applicable		6,375	95
Others[4]	106	106	100	106	100	Benefits available as applicable 100%					
Total	**71,037**	**71,037**	**100**	**71,037**	**100**	**100% of all maternity cases**		**61,721**	**96**	**66,242**	**93**
Other Than Permanent Employees											
Male	1,157	1,157	100	1,157	100	Not Applicable		968	84	803	69
Female	1,021	1,021	100	1,021	100	1,021	100	Not Applicable		992	97
Others[4]	-	-	-	-	-	Benefits available as applicable 100%					
Total	**2,178**	**2,178**	**100**	**2,178**	**100**	**100% of all maternity cases**		**968**	**84**	**1,795**	**82**

b. Details of measures for the well-being of workers:

Category	Total (A)	% of workers covered by: Health Insurance[1,2] Number (B)	% (B/A)	Accident Insurance Number (C)	% (C/A)	Maternity Benefits Number (D)	% (D/A)	Paternity Benefits Number (E)	% (E/A)	Day Care Facilities[3] Number (F)	% (F/A)
Permanent Workers											
Male	38,353	38,353	100	38,353	100	Not Applicable		36,859	96	36,260	95
Female	2,766	2,766	100	2,766	100	2,766	100	Not Applicable		2,606	94
Others[4]	106	106	100	106	100	Benefits available as applicable 100%					
Total	**41,225**	**41,225**	**100**	**41,225**	**100**	**100% of all maternity cases**		**36,965**	**96**	**38,972**	**95**
Other than Permanent Workers											
Male	1,37,768	1,37,768	100	1,37,768	100	Not Applicable				1,22,046	89
Female	9,000	9,000	100	9,000	100	9,000	100			6,726	75
Others[4]	4	4	100	4	100	Benefits available as applicable 100%		Not tracked		Not tracked	
Total	**1,46,772**	**1,46,772**	**100**	**1,46,772**	**100**	**100% of all maternity cases**				**1,28,776**	**88**

All contract employees in India, under Tata Steel and its Group Companies, are covered under Employees' State Insurance Corporation benefits and in case of any eventuality or death, financial aid to the family is extended under the Tata Steel Suraksha Scheme.

[1] Tata Steel employees at Jamshedpur and mining locations are covered under the Company's medical hospital for free medical treatment for self and dependents.

[2] For Tata Steel's European subsidiaries, Health Insurance and/or medical benefits are either provided by the government (e.g., the National Health Services in UK) or are compulsory. Accordingly, all employees are considered to be covered. Under Thailand labour law, health insurance, accident insurance, maternity benefits, paternity benefits and day care facilities are covered under social security schemes for other than permanent workers.

[3] For Tata Steel's European subsidiaries, day care facilities are typically provided by the national governments or part of the national school system. Employers are not directly involved, but 100% employees have access to such benefits.

[4] Others includes transgender personnel.

c. Spending on measures towards well-being of employees and workers (including permanent and other than permanent) in the following format –

	Tata Steel Standalone FY2025-26	Tata Steel Standalone FY2024-25	Tata Steel Consolidated FY2025-26	Tata Steel Consolidated FY2024-25
Cost incurred on well-being measures as a % of total revenue of the Company	0.19	0.17	0.22	0.22

Note 1: *For the purpose of calculating the spending on measures towards well being of employees and workers, the Company has considered the expense incurred towards employees/workers Health Insurance, Life Insurance, Medical Expenses, Sports Activities, Safety excellence rewards, maternity and paternity benefits, and other relevant expenses, net of any recoveries made from the employees/workers.*

Note 2: *Reasonable Assurance has been undertaken by Price Waterhouse & Co Chartered Accountants LLP, on the indicator in the table above for Standalone figures for FY2025-26. (highlighted in green)*

2. Details of retirement benefits, for Current FY and Previous FY:

All Tata Steel entities across all geographies provide retirement benefits to all its employees, which are aligned with regulatory requirements and market practices in the respective geography. Key retirement benefits offered by Tata Steel are:

<table>
<tr><th rowspan="2">Benefits</th><th rowspan="2">Applicability (Country)</th><th colspan="3">FY2025-26</th><th colspan="3">FY2024-25</th></tr>
<tr><th>No. of employees covered as a % of total employees in the relevant geographies</th><th>No. of workers covered as a % of total workers in the relevant geographies</th><th>Deducted and deposited with the authority (Y/N/N.A.)</th><th>No. Of employees covered as a % of total employees in the relevant geographies</th><th>No. of workers covered as a % of total workers in the relevant geographies</th><th>Deducted and deposited with the authority (Y/N/N.A.)</th></tr>

<tr><td>Stichting Pensioenfonds Hoogovens</td><td>The Netherlands</td><td rowspan="4">100</td><td rowspan="4">100% Permanent Workers are covered</td><td rowspan="4">NA</td><td rowspan="4">100</td><td rowspan="4">100% Permanent Workers are covered</td><td rowspan="4">NA</td></tr>
<tr><td>Tata Steel UK defined contribution scheme</td><td>United Kingdom</td></tr>
<tr><td>Thailand Provident Fund</td><td>Thailand</td></tr>
<tr><td>Thailand Severance Pay</td><td>Thailand</td></tr>
</table>

Tata Steel Limited offers several voluntary and optional schemes for its permanent employees and workers in India, such as the Tata Steel Superannuation Fund and the TISCO Employee Pension Scheme. Employees who choose not to participate receive a cash payment instead. Post-separation, employees can retain Company provided accommodation for 1 month to 1 year, extendable on a case-by-case basis.

In the Netherlands, the Wenckebach Fund assists employees with costs related to serious illnesses or accidents that are not covered by health insurance.

Below are brief descriptions of various schemes:

i. **Employees' Provident Fund:** Defined contribution scheme with a lump sum at superannuation (India).

ii. **Gratuity:** Defined benefit scheme with a lump sum at superannuation (India).

iii. **Employees' State Insurance Benefits:** Social security legislation providing medical care and cash benefits (India).

iv. **TISCO Employee Pension Scheme:** Defined contribution pension for permanent workers (India).

v. **Superannuation Fund:** Defined contribution pension for permanent employees (India).

vi. **National Pension Scheme:** Voluntary defined contribution retirement savings (India).

vii. **Employees' Pension Scheme:** Savings scheme ensuring a pension after retirement (India).

viii. **Stichting Pensioenfonds Hoogovens:** Defined contribution pension fund for employees in the Netherlands.

ix. **Tata Steel UK Defined Contribution Scheme:** Pension fund for employees in the UK.

x. **Thailand Provident Fund:** Defined contribution scheme with a lump sum at superannuation (Thailand).

xi. **Thailand Severance Pay:** Defined benefit scheme with a lump sum at superannuation (Thailand).

3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, (RPwD Act) 2016? If not, whether any steps are being taken by the entity in this regard.

Tata Steel complies with the RPwD Act, 2016, ensuring accessibility at all locations in India. New buildings meet accessibility standards and existing workstations and washrooms are being modified accordingly. Differently abled employees receive tailored laptops and assistive software/hardware for their specific needs. Workplace productivity software (O365) has built-in accessibility features. New differently abled employees get Company accommodation near the office during onboarding and a buddy to help with relocation and workplace familiarisation.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, (RPwD Act) 2016? If so, provide a web-link to the policy.

Yes, Tata Steel has an equal opportunity policy. In addition, the TCoC incorporates fundamental equal opportunity principles. Tata Steel's equal opportunity policy is in accordance with the provisions of the RPwD Act ,2016.

The weblink to Tata Steel's Equal Opportunity & Anti-Discrimination Policy is available at: https://www.tatasteel.com/corporate/our-organisation/policies/

5. Return to work (%) and Retention rates (%) of permanent employees and workers that took parental leave.

Gender	Permanent Employees		Permanent Workers	
	Return to work rate	Retention rate	Return to work rate	Retention rate
Male	98	92	98	95
Female	84	88	82	91
Total	**96**	**92**	**96**	**94**

Note: *NINL, TSUK, and TSN do not record this information. Hence, not included in this KPI's boundary.*

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

Yes, Please refer to Section A, sub-section VII, Question 25 of this report (Grievance Redressal Mechanisms for Employees and Workers)

7. Membership of employees and worker in association(s) or Unions recognised by the listed entity:

Tata Steel entities in India	FY2025-26			FY2024-25		
	Total Employees/ Workers in respective category	No. of Employees/ Workers in respective category who are part of association or union	%	Total Employees/ Workers in respective category	No. of Employees/ Workers in respective category who are part of association or union	%
Total Permanent Employees	**52,311**	**27,239**	**52**	**53,599**	**27,596**	**51**
Male	47,632	24,525	51	49,200	25,373	52
Female	4,573	2,609	57	4,307	2,133	50
Others[1]	106	105	99	92	90	98
Total Permanent Workers	**31,105**	**26,035**	**84**	**31,794**	**26,990**	**85**
Male	28,486	23,749	83	29,293	24,748	84
Female	2,513	2,181	87	2,409	2,152	89
Others[1]	106	105	99	92	90	98

[1]*Others include transgender personnel.*

Tata Steel entities (India + Overseas)	FY2025-26			FY2024-25		
	Total Employees/ Workers in respective category (A)	No. of Employees/ Workers in respective category who are part of association or union	%	Total Employees/ Workers in respective category	No. of Employees/ Workers in respective category who are part of association or union	%
Total Permanent Employees	**71,037**	**34,093**	**48**	**73,432**	**34,975**	**48**
Total Permanent Workers	**41,225**	**32,889**	**80**	**42,356**	**34,369**	**81**

Note: *It is not mandatory for employees in some of Tata Steel's European subsidiaries to inform the Company regarding their union affiliation. Data captured includes only those employees who pay their union dues via the Company but does not include employees (if any) who may be making direct payment to the union. A large proportion of Tata Steel's workforce is part of Union which promotes a healthy work environment.*

In steel industry, unionisation is concentrated in the workers category as managerial employees are not unionised. The proportion of unionised staff as a proportion of total permanent employees is 52% and as a proportion of total permanent workers is 84% for Tata Steel and its Indian subsidiaries.

8. Details of training given to employees and workers

Category	FY2025-26			FY2024-25		
	Total Number	On health and safety measures (%)	On skill upgradation (%)	Total Number	On health and safety measures (%)	On skill upgradation (%)
Employees

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such system?

Yes, Tata Steel has implemented an Occupational Health and Safety Management System (**'OHSMS'**). The system is based on ISO 45001:2018 and is designed to ensure that the Company meets Environmental, Health, and Safety Management System (**'EHSMS'**) related legal obligations and provides a safe and healthy working environment for its workforce. Safety and Health Management are integrated into the Company's annual business planning process and cascaded down from the Apex level to divisional and departmental levels, assigning accountability and responsibility at all levels. The OHSMS applies across all plants/offices and to the entire workforce (employees and contract workers). During FY2025-26, 100% of plants/offices were assessed for health, safety and working conditions, and 100% of employees and workers received health-and-safety training.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Tata Steel operates a structured risk-management system that proactively identifies hazards and assesses risks across all activities. The framework pinpoints significant risks and defines targeted mitigation measures. The Company continually strengthens its safety culture through strategic interventions aimed at reducing risks and preventing incidents.

Tata Steel employs several proactive tools and measures to ensure a safe working environment:

Site Engagements & Leadership Interventions reinforce leadership ownership of safety across Tata Steel Limited.

- Safety Visits and Line Walks are conducted regularly by employees and leaders at all levels to identify unsafe acts and conditions across sites including India, TSN, TSUK and TSTH.
- "Stop Work" empowerment, supported by multi-channel reporting through IT platforms and helplines, enables immediate intervention to prevent potential harm.
- The Fatality Risk Control Programme is applied group-wide to proactively identify and mitigate risks with fatal potential across India, TSN, TSUK and TSTH.
- Job Cycle Checks ensure compliance with and adequacy of Standard Operating Procedures at each stage of job execution across all sites.
- Focused interventions address the Elimination of Commonly Accepted Unsafe Practices, challenging entrenched behaviours and improving operational discipline.
