member benefits to the fullest extent possible after allowing for any expenses necessary to wind up the Scheme. The Deed of Amendment means that there is no longer an ability for TSUK to access any of the surplus of the Scheme. In accordance with IAS 19 an 'asset ceiling' has been applied to reflect the fact that TSUK does not have an unconditional right to a refund from the Scheme and therefore any of the ₹100.36 crore of remaining assets which are not required for the Scheme's expenses will not be returned to the Company.

(e) Other defined benefits

Other benefits provided under unfunded schemes include pension payable to directors on their retirement, farewell gifts, post-retirement lumpsum benefit and reimbursement of packing and transportation charges to the employees based on their last drawn salary.

The defined benefit plans expose the Group to a number of actuarial risks as below:

- (i) Investment risk:** The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government/high quality bond yields. If the return on plan asset is below this rate, it will create a plan deficit.

- (ii) Interest risk:** A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the value of plan's debt investments.
- (iii) Salary risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.
- (iv) Longevity risk:** The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- (v) Inflation risk:** Some of the Group's Pension obligations are linked to inflation, and higher inflation will lead to higher liabilities although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation.

The Group's investment policy is driven by considerations of maximising returns while ensuring credit quality of debt instruments. The asset allocation for plan assets is determined based on prescribed investment criteria and is also subject to other exposure limitations. The Group evaluates the risks, transaction costs and liquidity for potential investments. To measure plan assets performance, the Group compares actual returns for each asset category with published benchmarks.

(iii) Key assumptions used in the measurement of retiring gratuity is as below:

	As at March 31, 2026	As at March 31, 2025
Discount rate	6.80%-7.52%	6.60%-7.00%
Rate of escalation in the salary	5.50%-10.00%	7.00%-10.50%

(iv) Weighted average duration of the retiring gratuity obligation ranges between **6 to 22** years (March 31, 2025: 6 to 18 years).

(v) The Group expects to contribute **₹76.96** crore to the plan during the financial year 2026-27.

(vi) The table below outlines the effect of retiring gratuity obligation in the event of a decrease/increase of 1% in the assumptions used.

As at March 31, 2026

Assumption	Change in assumption	Impact on obligation
Discount rate	Increase by 1%, decrease by 1%	Decrease by ₹292.72 crore, increase by ₹344.77 crore
Rate of escalation in salary	Increase by 1%, decrease by 1%	Increase by ₹325.93 crore, decrease by ₹280.66 crore

As at March 31, 2025

Assumption	Change in assumption	Impact on obligation
Discount rate	Increase by 1%, decrease by 1%	Decrease by ₹289.04 crore, increase by ₹346.15 crore
Rate of escalation in salary	Increase by 1%, decrease by 1%	Increase by ₹331.90 crore, decrease by ₹283.26 crore

The above sensitivities may not be representative of the actual change as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

(iii) Key assumptions used in the measurement of pension benefits is as below:

	As at March 31, 2026		As at March 31, 2025	
	BSPS	Others	BSPS	Others
Discount rate	3.9%-6.02%	1.10%-5.52%	5.72%	1.10-5.40%
Rate of escalation in salary	NA	1.50% - 3.00%	NA	1.50 - 3.00%
Inflation rate	1.8%-3.04%	0.95%-3.00%	2.82%	1.00-3.00%

Demographic assumptions are set having regard to the latest trends in life expectancy, plan experience and other relevant data, including externally published actuarial information within each national jurisdiction. The base table assumption is reviewed and updated as necessary as part of the periodic actuarial funding valuations of the individual pension and post-retirement plans. For the BSPS the liability calculations as at March 31, 2026 use the Self-Administered Pension Schemes 3 (SAPS 3) base tables, S3PMA_M/S3PFA/S3DFA with the 2020 CMI projections with a **1.25%** p.a. (2024-25: 1.25% p.a.) long-term trend applied from 2013 to 2021 (adjusted by a multiplier of **1.03** p.a. (2024-25: 1.03 p.a.) for males, **1.03** p.a. (2024-25: 1.03 p.a.) for females and **1.04** p.a. for female dependents (2024-25: 1.04 p.a.). The future mortality improvements assumptions are typically updated with each release of an updated model. Future mortality improvements from 2021 onwards are allowed for in line with the 2022 CMI Projections with a long-term improvement trend of **1%** (2025: 1%) per annum, a smoothing parameter of 7.0 (2024-25: 7.0) and a 25% allowance for adopting the w2022 parameter for excess deaths in the UK in the COVID-19 affected years. This indicates that today's 65 year old male member is expected to live on average to approximately **86** years (2024-25: 86 years) of age and a male member reaching age 65 in 15 years' time is then expected to live on average to **86** years (2024-25: 86) of age.

(iv) Weighted average duration of the pension obligations is **Nil** (March 31, 2025: 10 years).

(v) The Group expects to contribute **Nil** to the plan during the financial year 2026-27.

(vi) The table below outlines the effect on pension obligations in the event of a decrease/increase of the following assumptions used.

37. Contingencies and commitments

A. Contingencies

In the ordinary course of business, the Group faces claims and assertions by various parties. The Group assesses such claims and assertions and monitors the legal environment on an on-going basis with the assistance of external legal counsel, wherever necessary. The Group records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Group provides disclosure in the financial statements but does not record a liability in its financial statements unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Group believes that none of the contingencies described below would have a material adverse effect on the Group's financial condition, results of operations or cash flows.

It is not practicable for the Group to estimate the timings of the cash outflows, if any, pending resolution of the respective proceedings. The Group does not expect any reimbursements in respect of the same.

Litigations

The Group is involved in legal proceedings, as defendant. There are claims which the Group does not believe to be of a material nature, other than those described below:

Income tax

The Group has ongoing disputes with income tax authorities relating to tax treatment of certain items. These mainly include disallowance of expenses and tax treatment of certain expenses claimed by the Company as deduction.

Most of these disputes and/or disallowances, being repetitive in nature, have been raised by the income tax authorities consistently in most of the years.

As at March 31, 2026, there are matters and/or disputes pending in appeal amounting to **₹4,002.36** crore (March 31, 2025: ₹4,117.40 crore) which includes **₹4.50** crore (March 31, 2025: ₹8.17 crore) in respect of equity accounted investees.

The details of significant demands are as below:

- (a) interest expenditure on loans taken by the Company for acquisition of a subsidiary has been disallowed in assessments with tax demand raised for **₹1,459.55** crore (inclusive of interest) (March 31, 2025: ₹1,521.87 crore).
- (b) interest expenditure on "Hybrid Perpetual Securities" has been disallowed in assessments with tax demand raised for **₹394.89** crore (inclusive of interest) (March 31, 2025: ₹379.69 crore).
- (c) The Company, through its wholly owned subsidiary Bamnival Steel Limited, acquired erstwhile Bhushan Steel Limited (subsequently renamed as Tata Steel BSL Limited (TSBSL), now merged with the Company) through the resolution process of the Insolvency and Bankruptcy Code, 2016. Following this acquisition, a debt of ₹25,185.51 crore was waived in favour of erstwhile TSBSL by Bamnival Steel Limited. The waiver of loan has been deemed as taxable in the hands of TSBSL under a reassessment order for FY2018-19. In the same reassessment order, the Company has received a tax demand of **₹594.80** crore (March 31, 2025: ₹594.80 crore) on account of withdrawal of earlier refund granted. The Company has filed writ petition before the Hon'ble High Court of Bombay challenging the reassessment. Matter was heard and decided in favour of the Company vide order dated August 12, 2025.

Finance Act 2025 has, however, made a retrospective amendment pertaining to the ground based on which the Company had received a favourable order. Basis the amendment, the matter may be revived and would then again be argued before the High Court on other grounds challenging the validity of the proceedings.

In respect of above demands, the Company has deposited an amount of **₹1,372.62** crore (March 31, 2025: ₹1,343.80 crore) as a precondition for obtaining stay. The Company expects to sustain its position on ultimate resolution of the said appeals.

Customs, excise duty, service tax and goods and service tax

As at March 31, 2026, there were pending litigations for various matters relating to customs, excise duty, service tax and GST involving demands of **₹610.47** crore

NOTES

37. Contingencies and commitments (Contd.)

(March 31, 2025: ₹765.83 crore), which includes **₹20.66** crore (March 31, 2025: ₹59.85 crore) in respect of equity accounted investees.

The detail of significant demand is as below:

The Company is providing municipal services in the town of Jamshedpur as per the Lease deed dated August 20, 2005. In this regard, the Company has entered into various agreements with Tata Steel Utilities and Infrastructure Services Limited ('TSUISL'), whereby TSUISL provides services to the Company, and the Company in turn provides such services to the residents. TSUISL charges GST on the invoices raised and the Company takes Input Tax Credit (ITC) of the same in terms of the GST Laws.

Further, the Company maintains Tata Main Hospital (TMH) in the town of Jamshedpur, wherein health care services are provided to employees as well as non-employees. The Company has taken ITC of GST paid on various services received which is attributable to employees.

Both the above ITC were disputed by the department and show cause notices (SCN) were issued. The demand in the said SCN has been confirmed vide order in original dated June 23, 2023. Against the said Order, the Company preferred an appeal before the Commissioner (Appeals) Ranchi which was disposed in the favor of the company vide order dated May 22, 2025.

The amount involved as at March 31, 2026 amounts to **Nil** (March 31, 2025: ₹154.54 crore).

Sales tax /VAT

As at March 31, 2026, sales tax demands that are being contested by the Group amount to **₹476.03** crore (March 31, 2025: ₹380.98 crore), which includes **₹17.66** crore (March 31, 2025: ₹29.74 crore) in respect of equity accounted investees.

Other taxes, dues and claims

- (a) Orissa Rural Infrastructure and Socio-Economic Development Act, (ORISED)

The State of Odisha enacted the "Orissa Rural Infrastructure and Socio-Economic Development Act, 2004 (ORISED Act)" with effect from February 01, 2005, levying tax on mineral bearing land.

The Company during FY06 received various demands amounting to ₹129 crore pertaining to the period FY05 and FY06 in respect of its mines in the State of Odisha. The Company had filed a writ petition in the Hon'ble High Court of Orissa challenging the constitutional validity of the Act on the ground that the State of Odisha lacks the legislative authority to enact ORISED Act, 2004 and therefore the same is unconstitutional. The Hon'ble High Court of Orissa in December 2005 held that the State does not have the legislative authority to levy tax on minerals. The State of Odisha had challenged the Judgment of the Hon'ble High Court before the Hon'ble Supreme Court. Subsequently, the matter relating to legislative authority of the States to tax minerals, was referred to the Constitution Bench of the Hon'ble Supreme Court.

The Judgement of the Constitution Bench of the Hon'ble Supreme Court was pronounced on July 25, 2024. The Hon'ble Supreme Court ruled that the Mines and Minerals (Development & Regulation) Act will not denude the States of the power to levy tax on mineral rights. The Constitution Bench further directed the listing of pending matters before an appropriate Regular Bench of the Hon'ble Supreme Court. This was followed by an Order dated August 14, 2024 of the Constitution Bench of the Hon'ble Supreme Court, directing/clarifying certain matters in respect of its Judgement dated July 25, 2024.

Notwithstanding the recent Judgement dated July 25, 2024 and August 14, 2024 of the Constitution Bench of the Hon'ble Supreme Court laying down the principle of law, pending hearing of the Appeal filed by the State of Odisha before the appropriate Regular Bench of the Hon'ble Supreme Court against the Judgement and Order of the Hon'ble High Court of Orissa which had declared the ORISED Act, 2004 to be unconstitutional and inoperative, it is unclear/uncertain as regards the form and manner in which the ORISED Act, 2004 may get enacted once the decision of the Hon'ble High Court of Orissa is set aside by the Hon'ble Supreme Court, which currently is pending.

The Company has filed a curative petition before the Hon'ble Supreme Court of India on January 17, 2025, invoking extraordinary jurisdiction of the Hon'ble Supreme Court of India under Article 142

of the Constitution of India read with order XLVIII, Rule 1 of the Supreme Court Rules, 2013 in respect of the order dated September 24, 2024 passed by the Constitutional Bench of the Hon'ble Supreme Court of India dismissing the review petition against judgment dated July 25, 2024 and August 14, 2024, which is pending.

Accordingly, the Company would be able to assess the financial impact, if any, of the possible obligation only on the occurrence or non-occurrence of uncertain future events, related to the legal course, not entirely within the control of the Company, and the consequent actions of the Union and the State Government.

While the Company had previously reported and disclosed an estimated amount of contingent liability towards possible obligation under the aforesaid ORISED matter, as on date, based on the above uncertainty, along with an opinion from senior legal counsel obtained by the Company, there is no present/legal obligation in respect of the levy related to the ORISED Act, 2004 and its financial impact along with the possibility of outflow at this stage is unlikely.

The Company has, accordingly, not recognised any provision in its financial statements.

- (b) Other amounts for which the Group may contingently be liable aggregate to **₹6,174.37** crore (March 31, 2025: ₹5,307.12 crore), which includes **₹138.34** crore (March 31, 2025: ₹113.77 crore) in respect of equity accounted investees.

The details of significant demands are as below:

- (i) the Company pays royalty on iron ore on the basis of quantity removed from the leased area at the rates based on notification issued by the Ministry of Mines, Government of India and the price published by Indian Bureau of Mines (IBM) on a monthly basis.

A demand of ₹411.08 crore was raised by the Deputy Director of Mines, Joda, claiming royalty at sized ore rates on dispatches of ore fines. The Company filed a revision petition before the Mines Tribunal, Government of

India, Ministry of Mines, New Delhi, challenging the legality and validity of the demand raised and also to grant refund of excess royalty paid by the Company.

Mines tribunal vide its order dated November 13, 2014 stayed the demand of royalty on iron ore for Joda East mines of ₹314.28 crore upto the period ending March 31, 2014. For the demand of ₹96.80 crore for April, 2014 to September, 2014, a separate revision application was filed before the Mines Tribunal. The matter was heard by the Mines Tribunal and a stay was granted on the total demand with a directive to the Government of Odisha not to take any coercive action for realisation of demand.

Subsequently, the Hon'ble High Court of Orissa in a similar matter held the circulars based on which demands were raised to be valid. On the basis of this judgement the matter was challenged in the Supreme Court, which is pending to be listed for hearing.

In the meanwhile, on October 26, 2022, an assessment order (for the period April 2022 to September 2022) was served, confirming that royalty will be paid for Calibrated Lump Ore and Fines at their respective prices published by the IBM w.e.f. April 2022.

The matter is pending for hearing before the Mines Tribunal, New Delhi, subject to the final hearing at the Hon'ble Supreme Court.

Likely demand of royalty on fines at sized ore rates as on March 31, 2026 is **₹2,696.58** crore (March 31, 2025: ₹2,696.58 crore).

- (ii) The Hon'ble Supreme Court pronounced its judgement in the Common Cause case on August 2, 2017 wherein it directed that compensation equivalent to the price of mineral extracted in excess of environment clearance or without forest clearance from the forest land be paid.

In pursuance to the Judgement of the Hon'ble Supreme Court, demand/show cause notices were issued during 2017-18 by the Deputy Director of Mines, Odisha and the District Mining Office, Jharkhand.

NOTES

37. Contingencies and commitments (Contd.)

In respect of the above demands outstanding as on March 31, 2026:

- › the Company has challenged demands amounting to ₹132.91 crore for production in excess of lower of mining plan and consent to operate limits raised by the Deputy Directors of Mines, Odisha before the Mines Tribunal and obtained a stay of the matter. Mines Tribunal, Delhi vide order dated November 26, 2018 sent back the matter to the State for fresh consideration.

On September 14, 2022, the Deputy Director of Mines, Government of Odisha issued a fresh demand amounting to ₹107.00 crore against the Company directing payment of compensation amount towards unlawful production in the mines in violation of mining plan/consent to operate. Revision Applications have also been filed against the same on November 3, 2022 with the Mines Tribunal. Thereafter, the Company filed writ petitions against the Order passed by the revisional authority in the case of Katamati Iron Ore mines & Manmora Iron Ore Mines on March 22, 2024.

The Revisional Authority passed orders dismissing the Revisional Applications filed by the Company for Katamati Iron Ore Mines and Manmora iron ore mines and set aside the orders passed by Deputy Director of Mines against the Company for other mining locations amounting to ₹62.09 crore. Subsequently, on September 01, 2025, the State has raised a demand for interest on delayed payment of these demands amounting to ₹59.40 crore. The Company has challenged these demands via revision applications filed before Mines Tribunal, Delhi on September 18, 2025 and notice has been issued to the State inviting its comments. Demand stayed on November 17, 2025.

The demand amount of **₹104.50** crore is considered contingent.

- › the Company based on its internal assessment had provided an amount of ₹1,412.89 crore against demand notices amounting to ₹2,140.30 crore received from the District Mining Office, Jharkhand for producing more than environment clearance and the balance amount of ₹727.41 crore was considered contingent. Subsequently, based on a favourable judgement of the Revisionary Authority wherein the demands of the State were set aside and legal opinion obtained by the Company, it was considered appropriate to reverse the provision of ₹1,412.89 crore and also drop ₹727.41 crore from contingent liability.

Subsequently, the Hon'ble High court of Jharkhand in its order on similar matter related to other coal companies decided that the District Mining Officer do not have the authority to raise such demands.

Pursuant to the above order, the Government of Jharkhand has authorised its designated officials to deal on the above matters.

Thereafter, on February 2, 2026 and March 30, 2026 the Company has again received similar demands amounting to **₹2,140.30** crore in respect of its collieries in Jharia and West Bokaro in the State of Jharkhand.

Based on the earlier favourable judgement of the Revisionary Authority and the external legal opinion obtained by Company, the said demand of ₹2,140.30 crore is considered contingent.

- (iii) As per the Mine Development & Production Agreement (MDPA) signed by erstwhile Tata Steel Mining limited (TSML) (now merged with the Company) with the State Government, Sukinda Chromite Mine of TSML is required to dispatch annually 80 percent of the average annual production of the last two years before the mine was put into auction. In view of the low volume of open cast minable reserves and inoperable conditions in the mine, TSML approached the State Government for

37. Contingencies and commitments (Contd.)

revision of MDPA targets. During discussions with the State, TSML had obtained approval for modified mining plan of six lakh tonnes on July 22, 2022 from the Indian Bureau of Mines (IBM) for the period FY2023 till FY2025 basis which the operational plan of TSML was revised accordingly.

On March 13, 2024 the Company received a letter from IBM stating that the modification plan approved vide IBM letter dated July 22, 2022 is no more relevant and is withdrawn. In response to the aforesaid letter, the Company has submitted the Mine Closure plan on March 29, 2024 which was approved on October 08, 2024.

The Company has received various demand letters from the Deputy Director of Mines, Jajpur amounting to ₹4,314 crore on different dates for shortfall in dispatch for the period July 23, 2023 to July 22, 2025 which has been challenged by the Company in the Hon'ble High Court of Orissa.

Subsequently, in a judgement dated April 20, 2026, the Court had quashed the demand notices and directed the State to take fresh steps based on the legal conclusions provided in the judgement.

Accordingly based on the above and external legal opinion obtained by the Company, the demand amount of ₹4,314.00 crore (March 31, 2025: ₹1,563.76 crore) is not considered as contingent.

- (iv) Tata Steel IJmuiden Bv ("TSIJ") operates two coke and gas plants, CGP1 and CGP2. On 19 December 2024, the environmental Agency of the North Sea Canal (EA) imposed penalty orders for alleged exceedances of emission thresholds for substances of very high concern at both facilities with a combined maximum financial exposure of €27 million equivalent to ₹294.34 crore. The Company has made a provision of €22 million equivalent to ₹239.84

crore during the year on account of penalty relating to emissions exceeding permissible thresholds in relation to CGP1 and CGP2.

As at the reporting date, the matter is considered contingent in nature. However, the likely further financial impact could be in the range of €0-5 million (Nil – ₹54.51 crore).

- (v) In April 2026, Inspectie Leefomgeving en Transport (ILT) issued a penalty order relating to the classification of LD steel slag, asserting that the material should be classified as hazardous under the CLP regulations. The penalty is set at €15 per tonne, with a maximum financial exposure of €10 million equivalent to ₹109.02 crore. Tata Steel Nederland ("TSN") management strongly contends the classification of slag as by products. Accordingly, the matter is considered contingent in nature and may result in a financial exposure upto €10 million equivalent to ₹109.02 crore.
- (vi) Stichting Frisse Wind ("SFW") initiated a class action against Tata Steel IJmuiden B.V. and Tata Steel Nederland B.V. (jointly "Tata Steel") under the Dutch Act on Collective Settlement of Mass Claims ("WAMCA"). Its claim seeks declaratory relief on liability and compensation for alleged damages caused by TSN's operations in Velsen-Noord (including, most importantly, emissions of hazardous and/or harmful substances).

The suit is in admissibility phase in the Court of Law. At this stage, the outcome and potential financial impact of the proceedings cannot be reliably estimated. Accordingly, no provision has been recognised, and the matter is disclosed as a contingent liability.
- (vii) On May 19, 2021 a criminal complaint was filed on behalf of more than 800 people and ten foundations against Tata Steel and its de facto managers. In February 2022, the Public Prosecution Office initiated a criminal investigation focusing on the alleged introduction of hazardous substances that

could affect public health into the soil, air or surface water. On April 8, 2025, the EA NZKG has informed TSIJ that a criminal investigation has been initiated into the exceedance of emission limit values for dust at Continuous Caster Machines ("CCMs") from 2020 to 2025. On February 4, 2026 the EA NZKG issued a written interrogation to which TSIJ has duly responded. The timing and outcome of the overall investigation remain uncertain. Accordingly, no provision has been recognised, and the matter is disclosed as a contingent liability.

B. Commitments

- (a) The Group has entered into various contracts with suppliers and contractors for acquisition of plant and machinery, equipment and various civil contracts of capital nature amounting to **₹25,172.35** crore, which includes **₹19.51** crore in respect of equity accounted investees (March 31, 2025: ₹22,625.39 crore which includes ₹23.63 crore in respect of equity accounted investees). Other commitment as at March 31, 2026 amounts to **₹0.01** crore which includes Nil in respect of equity accounted investees (March 31, 2025: ₹0.01 crore)
- (b) The Company has given undertakings to:
 - (i) IDBI not to dispose of its investment in Wellman Incandescent India Ltd.
 - (ii) IDBI and ICICI Bank Ltd. (formerly ICICI) not to dispose of its investment in Standard Chrome Ltd.
- (c) The Group has given guarantees aggregating **₹83.81** crore (March 31, 2025: ₹107.98 crore) details of which are as below:
 - (i) in favour of Commissioner Customs for **₹1.07** crore (March 31, 2025: ₹1.07 crore) given on behalf of Timken India Limited in respect of goods imported.
 - (ii) in favour of The President of India for **₹82.59** crore (March 31, 2025: ₹82.59 crore) against performance of export obligation under the various bonds executed by a joint venture Jamshedpur Continuous Annealing & Processing Company Private Limited.
 - (iii) in favour of ICICI Bank for **Nil** (March 31, 2025: ₹24.17 crore) guaranteeing the financial liability of an associate TRF Limited (TRF), for the purpose of availing banking facility for TRF's business operations including working capital and performance contract.
 - (iv) in favour of President of India for **₹0.15** crore (March 31, 2025: ₹0.15 crore) against advance license.

38. Other significant litigations

- (a) Odisha Legislative Assembly issued an amendment to Indian Stamp Act, 1899, on May 9, 2013 and inserted a new provision (Section 3A) in respect of stamp duty payable on grant/renewal of mining leases. As per the amended provision, stamp duty is levied equal to 15% of the average royalty that would accrue out of the highest annual extraction of minerals under the approved mining plan multiplied by the period of such mining lease.

The Company filed a writ petition challenging the constitutionality of the Act on July 5, 2013. The Hon'ble High Court, Cuttack passed an order on July 9, 2013 granting interim stay on the operation of the Amendment Act, 2013. Because of the stay, as on date, the Act is not enforceable and any demand received by the Company is not liable to be proceeded with. Meanwhile, the Company received demand notices for the various mines at Odisha totalling to **₹5,579.00** crore (March 31, 2025: ₹5,579.00 crore).

In April 2015, the Company had received an intimation from Government of Odisha, granting extension of validity period for leases under the MMDR Amendment Act, 2015 upto March 31, 2030 in respect of eight mines and upto March 31, 2020 for two mines subject to execution of supplementary lease deed. The Company had paid the stamp duty and registration charges as per the earlier provisions of the Stamp Act, 1899 totaling ₹413.72 crore for supplementary deed execution in respect of eight mines out of the above mines.

The Company subsequently received notices demanding differential stamp duty and registration fees from Deputy Director of Mines amounting to **₹69.16** crore in respect of Joda East iron ore mine and **₹86.07** crore in respect of Katamati iron ore Mine. These have also been challenged by the Company by filing Writ Petitions, for which hearing took place on multiple dates. Meanwhile, the Court has directed the Deputy Director of Mines not to take any coercive action against the Company.

On November 26, 2025, the Company has received demand notices regarding differential stamp duty and registration fees amounting to **₹5.30** crore, **₹4.57** crore, **₹13.58** crore and **₹94.98** crore in respect of Bamebari, Tiringpahar, Joda West and Khondbond Iron Ore & Manganese Mine. These were challenged by filing writ petition on December 1, 2025. The case was listed for hearing on December 8, 2025 and was rescheduled for hearing on February 10, 2026 which could not be taken up and the next date of hearing is not known.

Based on external legal opinion obtained by the Company, the Company is of the view that it is remote that the claim will sustain on ultimate resolution of the legal case by the court.

- (b) Noamundi iron ore mine of the Company was due for its third renewal with effect from January 1, 2012. The application for renewal was submitted by the Company within the stipulated time, but it remained pending consideration with the State and the mining operations were continued in accordance with the prevailing law.

By a judgement of April 2014 in the case of Goa Mines, the Supreme Court took a view that second and subsequent renewal of mining lease can be effected once the State considers the application and decides to renew the mining lease by issuing an express order. State of Jharkhand issued renewal order to the Company on December 31, 2014. The State, however, took a view on interpretation of Goa Mines judgement that the mining carried out after expiry of the period of second renewal was 'illegal' and hence, issued a demand notice of **₹3,568.31** crore being the price of iron ore extracted. The said demand was challenged by the Company before the Jharkhand High Court.

The writ petition filed by the company before the Hon'ble High Court of Jharkhand was heard and an interim order was given wherein the Court directed the Company to pay an amount of ₹371.83 crore in 3 equal instalments, first instalment by October 15, 2015, second instalment by November 15, 2015 and third instalment by December 15, 2015.

NOTES

forming part of the consolidated financial statements

38. Other significant litigations (Contd.)

In view of the interim order of the Hon'ble High Court of Jharkhand ₹124.00 crore was paid on September 28, 2015, ₹124.00 crore on November 12, 2015 and ₹123.83 crore on December 14, 2015 under protest.

The case is pending before the Hon'ble High court for disposal. The State issued similar terms and conditions to other mining lessees in the State rendering the mining as illegal.

Based on the Company's assessment of the Goa mines judgement read with the Ordinance issued in the year 2015 and external legal opinion obtained, the Company believes that it is remote that the demand of the State would sustain.

- (c) The Supreme Court of India vide its order dated September 24, 2014, cancelled the coal blocks allocated to various entities which included one coal block allocated to the Tata Steel BSL Limited ("TSBSL", entity merged with the Company in an earlier year). Subsequently, the Government of India issued the Coal Mines (Special Provision) Act, 2015, which inter alia deals with the payment of compensation to affected parties for investment in coal blocks.

The Company filed its claim for compensation with the Government of India, Ministry of Coal ('MoC'). The MoC informed that all statutory license, consent approvals, permission required for undertaking of coal mining operations in New Patrapara Coal Mine now vested with Singareni Collieries Company Ltd. ("SCCL", a state Government Undertaking) to whom the mine was subsequently allotted.

The MoC/Union of India filed a supplementary affidavit dated February 11, 2020 before the Delhi High Court vide which it informed that payment of compensation can be made to the prior allottee after the mine is successfully allotted and compensation is deposited by the successful allottee, following the sequence mentioned in section 9 of Coal Mine (Special Provisions) Act, 2015. The MoC vide order dated May 17, 2021 directed SCCL to pay compensation to erstwhile TSBSL.

Subsequently, the Union of India filed an affidavit dated March 6, 2023 before the High Court vide which it informed that the successful allottee i.e., M/s SCCL had

surrendered the New Patrapara Coal Block. The hon'ble High Court directed the MoC and Odisha Industrial Infrastructure Development Corporation (IDCO) to file updated status report outlining the amount payable to the prior allottee and indicate the date by which amount could be disbursed.

On July 5, 2023, the Delhi High Court directed the State of Odisha and IDCO to release the available balance of ₹105.33 crore within four weeks and directed the Union of India to file a detailed affidavit clearly stating as to what steps are being taken to ensure that the coal block is successfully allocated within a reasonable period of time. Government of Odisha along with IDCO released ₹105.33 crore on August 8, 2023. Further, an amount of ₹0.32 crore was released by IDCO on August 10, 2023 towards compensation pertaining to cost for geological reports.

Subsequently, the MoC vide its letter dated April 15, 2024, informed that the earlier order dated May 15, 2021 wherein compensation payable to the prior allottee was fixed, stands withdrawn and that the compensation needs to be redetermined.

On November 26, 2024, NLC India Ltd was declared as the successful allottee of the coal block i.e., New Patrapara South Coal Block, which is a part of the larger New Patrapara Coal Block.

In view of the change in law and facts, the Company filed an application for withdrawal of its writ petition and seeking liberty to file a fresh writ petition to include subsequent developments. The Court granted liberty to the Company to include in its Writ Petition any other ancillary relief as it may deem appropriate. The Company has subsequently filed a writ petition on May 26, 2025 and a rejoinder on February 24, 2026, which are yet to be taken on record. The date of hearing is schedule to be on July 23, 2026.

The receivable in respect of the de-allocated coal block in the financial statements of the Company amounts to ₹308.90 crore (net of provision of ₹138.74 crore).

Based on an assessment of the matter, including evidences supporting the expenditures and related claims, the Company considers the aforesaid amount to be good and fully recoverable.

38. Other significant litigations (Contd.)

- (d) The Company upon merger of erstwhile Tata Steel Long Products Limited ('TSLP') has a receivable of ₹179.00 crore towards the de-allocated Radhikapur (East) Coal Block.

Pursuant to the judgement of the Hon'ble Supreme Court, the Government of India promulgated the Coal Mines (Special Provision) Act, 2015 (the "Coal Mines Act") for fresh allocation of the coal mines through auction. In terms of the Coal Mines Act, the prior allottee would be compensated for expenses incurred towards land and mine infrastructure. The validity of the Act has been challenged by Federation of Indian Mineral Industries ('FIMI') in 2019 before the Hon'ble Supreme Court to the extent that the Act does not provide grant of just, fair and equitable compensation in a time bound manner to the prior allottees of the coal blocks.

Tata Steel Long Products Limited (TSLP) has filed an application on December 15, 2022, before the Hon'ble Supreme Court in the pending writ of FIMI seeking to

expedite the disbursement of compensation. On March 6, 2023, the MoC submitted a status affidavit to the High Court with regard to the ongoing case which was filed by TSLP challenging the constitutional validity of the provisions dealing with the payment of compensation to the prior allottee of the Coal Mines (Special Provisions) Act, 2015. On March 7, 2023, TSLP submitted that the status affidavit did not comply with the previous orders passed. The Company has also filed a rejoinder on May 9, 2025, claiming compensation. On May 4, 2026 the matter was taken up for hearing and the Court was pleased to allow the Application for change of name from Tata Steel Long Products to Tata Steel Limited. Further, the application for amendment of writ petition also stands allowed on the same date. The case is listed for hearing on 23 July 2026.

Based on an assessment of the matter including evidence supporting the expenditure and claim and an external legal opinion obtained by the Company, the aforesaid amount is considered good and fully recoverable.

- Goodwill is attributable to the benefit of expected synergies, revenue growth and future market developments and the assembled workforce of TSCPL.
- From the date of acquisition, TSCPL contributed **₹1,385.70** crore to revenue from operations and a profit of **₹4.69** crore to the consolidated profit before tax on a pre-consolidation adjustments basis.

Had this business combination been affected on April 1, 2025, the revenue from operation of the Group would have been higher by **₹3,293.88** crore and profit would have been higher by **₹61.57** crore on a pre-consolidation adjustments basis. The management consider these 'pro-forma' numbers to represent an approximate measure of the performance of the Group on an annualised basis.

Pursuant to the business combination, contingent liabilities of the TSCPL has been considered as contingent liabilities of the Group.

- Before acquisition of additional stake in TSCPL, Tata Steel Downstream Products Limited, a wholly owned subsidiary of the company held 50% ownership in the Joint venture, formerly known as Tata Bluescope Steel Private Limited. On the date of acquisition, fair value determined for its existing stake of **₹1,100** crore and a gain on remeasuring the equity interest to fair value of **₹901.13** crore was recognised in the Consolidated Statement of Profit and Loss.
- The Company had pre-existing relationship with TSCPL, formerly known as Tata Bluescope Steel Private Limited, which gets settled on acquisition of TSCPL as an indirect subsidiary of the Company. No gain/(loss) was recognised on settlement of payable/receivables balances and finance lease transactions between the Company and TSCPL.
- No material acquisition costs were charged to the consolidated statement of profit and loss for the year ended March 31, 2026.

41. Capital Management

The Group's capital management is intended to create value for shareholders by facilitating the achievement of long-term and short-term goals of the Group.

The Group determines the amount of capital required on the basis of annual business plan of entities within the Group coupled with long-term and short-term strategic investment and expansion plans. The funding needs are met through equity, cash generated from operations, long and short-term bank borrowings and issue of non-convertible debt securities.

The Group monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Group.

Net debt includes interest bearing borrowings including lease obligations less cash and cash equivalents, other bank balances (including non-current and current earmarked balances), current investments and foreign currency hedges against borrowings.

The table below summarises the capital, net debt and net debt to equity ratio of the Group.

	As at March 31, 2026	As at March 31, 2025

(b) Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below.

Quoted prices in an active market (Level 1): This Level of hierarchy includes financial assets and liabilities, that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investments in quoted equity shares and mutual funds.

Valuation techniques with observable inputs (Level 2): This Level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level of hierarchy includes the Group's over-the-counter (OTC) derivative contracts.

NOTES

forming part of the consolidated financial statements

42. Disclosures on financial instruments (Contd.)

Valuation techniques with significant unobservable inputs (Level 3): This Level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This category includes investment in unquoted equity shares and preference shares.

	-	597.56	-	597.56

Notes:

- Current financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.
- Derivatives are fair valued using market observable rates and published prices together with forecasted cash flow information where applicable.
- Investments carried at fair value are generally based on market price quotations. Investments in equity instruments included in level 3 of the fair value hierarchy have been valued using the cost approach to arrive at their fair value. Cost of unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range. Fair value of investment in preference shares is estimated by discounting the expected future cash flows using a discount rate equivalent to the expected rate of return for a similar instrument and maturity as on the reporting date.

NOTES

forming part of the consolidated financial statements

42. Disclosures on financial instruments (Contd.)

- (iv) Fair value of borrowings which have a quoted market price in an active market is based on its market price which is categorised as Level 1. Fair value of borrowings which do not have an active market or are unquoted is estimated by discounting the expected future cash flows using a discount rate equivalent to the risk-free rate of return adjusted for credit spread considered by lenders for instruments of similar maturities which is categorised as level 2 in the fair value hierarchy.
- (v) Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Group could have realised or paid in sale transactions as of respective dates. As such, fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.
- (vi) There have been no transfers between Level 1 and Level 2 for the years ended March 31, 2026 and March 31, 2025.
- (vii) Reconciliation of level 3 fair value measurement is as below:

	Year ended March 31, 2026	Year ended March 31, 2025
	(₹ crore)	
Balance at the beginning of the year	599.25	536.38
Additions during the year	252.60	21.66

Fair value changes during the year	72.51	33.18
Exchange rate difference on consolidation	36.17	8.03
Balance at the end of the year	940.67	599.25

(c) Derivative financial instruments

Derivative instruments used by the Group include forward exchange contracts, interest rate swaps, currency swaps, options, commodity futures, interest rate caps and collars. These financial instruments are utilised to hedge future transactions and cash flows and are subject to hedge accounting under Ind AS 109 "Financial Instruments" wherever possible. The Group does not hold or issue derivative financial instruments for trading purposes. All transactions in derivative financial instruments are undertaken to manage risks arising from underlying business activities.

The following table sets out the fair value of derivatives held by the Group as at the end of the reporting period.

	As at March 31, 2026		As at March 31, 2025

42. Disclosures on financial instruments (Contd.)

As at the end of the reporting period, total notional amount of outstanding foreign currency contracts, commodity futures, options, interest rate swap and collars that the Group has committed to is as below:

	(US \$ million)	
	As at March 31, 2026	As at March 31, 2025
(i) Foreign currency forwards, futures, swaps and options	3,482.31	3,211.54
(ii) Commodity futures and options	576.73	613.73
(iii) Interest rate swaps and collars	525.00	146.67
	4,584.04	3,971.94

(d) Transfer of financial assets

The Group transfers certain trade receivables under discounting arrangements with banks/financial institutions. Some of such arrangements do not qualify for de-recognition due to recourse arrangements being in place. Consequently, the proceeds received from transfer are recorded as short-term borrowings from banks and financial institutions. As at March 31, 2026 and March 31, 2025, there has been no such transfer of trade receivables.

(e) Financial risk management

In the course of its business, the Group is exposed primarily to fluctuations in foreign currency exchange rates, commodity prices, interest rates, equity prices, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

Entities within the Group have a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors of the respective companies. The risk management framework aims to:

- (i) create a stable business planning environment by reducing the impact of currency, commodity prices and interest rate fluctuations on the entity's business plan.
- (ii) achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

(i) Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, commodity prices, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(a) Market risk - Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the consolidated statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective consolidated entities.

Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Great British Pound, Euro, Singapore Dollar, and Thai Baht against the respective functional currencies of the Company and its subsidiaries.

Entities as per their risk management policy, use foreign exchange forward and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. Any weakening of the functional currency may impact the respective entities' cost of imports and cost of borrowings and consequently may increase the cost of financing the Group's capital expenditures.

NOTES

forming part of the consolidated financial statements

42. Disclosures on financial instruments (Contd.)

A 10% appreciation/depreciation of foreign currencies with respect to the functional currency of the entities within the Group would result in a decrease/increase in the Group's net profit and equity before considering tax impacts by approximately **₹289.90** crore for the year ended March 31, 2026, (2024-25: ₹158.55 crore).

The foreign exchange rate sensitivity is calculated by assuming a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency of the entities within the Group.

The sensitivity analysis has been based on the composition of the Group's financial assets and liabilities as at March 31, 2026 and March 31, 2025 excluding trade payables, trade receivables, other derivative and non-derivative financial instruments not forming part of debt and which do not present a material exposure. The period end balances are not necessarily representative of the average debt outstanding during the period.

(b) Market risk - Interest rate risk:

Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rates. Any movement in the reference rates could have an impact on the Group's cash flows as well as costs.

The Group is subject to variable interest rates on some of its interest-bearing liabilities. The Group's interest rate exposure is mainly related to debt obligations.

Based on the composition of debt as at March 31, 2026 and March 31, 2025 a 100 basis points increase in interest rates would increase the Group's finance costs (before considering interest eligible for capitalisation) and thereby consequently reduce net profit and equity before considering tax impacts by approximately **₹389.14** crore for the year ended March 31, 2026 (2024-25: ₹536.91 crore)

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

(c) Market risk - Equity price risk:

Equity price risk is related to the change in market reference price of investments in equity securities held by the Group.

The fair value of quoted investments held by the Group exposes the Group to equity price risks. In general, these investments are not held for trading purposes.

The fair value of quoted investments in equity classified as fair value through other comprehensive income as at March 31, 2026 and March 31, 2025 was **₹1,898.63** crore and ₹1,908.89 crore respectively.

A 10% change in equity prices of such securities held as March 31, 2026 and March 31, 2025 would result in an impact of **₹189.86** crore and ₹190.89 crore respectively on equity before considering tax impact.

(ii) Commodity risk

The Group makes use of commodity futures contracts and options to manage its purchase price risk for certain commodities. Across the Group, forward purchases are also made of zinc, tin and nickel to cover sales contracts with fixed metal prices.

There was no significant market risk relating to the consolidated statement of profit and loss since the majority of commodity derivatives are treated as cash flow hedges with movements being reflected in equity and the timing and recognition in the consolidated statement of profit and loss would depend on the point at which the underlying hedged transactions are recognised.

(iii) Credit risk

Credit risk is the risk of financial loss arising from counter-party failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks.

Entities within the Group have a policy of dealing only with credit worthy counter parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults.

NOTES

forming part of the consolidated financial statements

42. Disclosures on financial instruments (Contd.)

Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans receivables, investments in debt securities and mutual funds, balances with banks, bank deposits, derivatives and financial guarantees provided by the Group. None of the financial instruments of the Group result in material concentration of credit risk.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to credit risk was **₹19,187.75** crore and ₹19,080.77 crore as at March 31, 2026 and March 31, 2025 respectively, being the total carrying value of trade receivables, balances with bank, bank deposits, investments in debt securities and mutual funds, loans, derivative assets and other financial assets.

The risk relating to trade receivables is presented in Note 15, page F191.

The Group's exposure to customers is diversified and there is no concentration of credit risk with respect to any particular customer as at March 31, 2026 and March 31, 2025.

In respect of financial guarantees provided by the Group to banks and financial institutions, the maximum exposure which the Group is exposed to is the maximum amount which the Group would have to pay if the guarantee is called upon. Based on the expectation at the end of the reporting period, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

(iv) Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Group has obtained fund and non-fund based working capital lines from various banks. Furthermore, the entities within the Group have access to undrawn lines of committed and uncommitted borrowing/facilities, funds from debt markets through commercial paper programs, non-convertible debentures and other debt instruments. The Group invests its surplus funds in bank fixed deposits and mutual funds, which carry no or low mark to market risk. The Group also constantly monitors funding options available in the debt and capital markets with a view of maintaining financial flexibility.

The Group's liquidity position remains strong at **₹45,237.33** crore as on March 31, 2026, comprising **₹11,573.15** crore of current investments, cash and cash equivalents and other balances with bank (including non-current and current earmarked balances) and **₹33,664.18** crore, in committed undrawn bank lines.

The following table shows a maturity analysis of the anticipated cash flows including future interest obligations for the Group's derivative and non-derivative financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value. Floating rate interest is estimated using the prevailing interest rate at the end of the reporting period. Cash flows in foreign currencies are translated using the period end spot rates.

* Refers to companies that were struck off as at March 31, 2025, but have become active during the year ended March 31, 2026.

- 46.** On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Group has assessed and disclosed the incremental impact of these changes, consistent with the guidance provided by the Institute of Chartered Accountants of India. Accordingly, the Group has considered a charge of **₹85.37** crore within exceptional items in the consolidated statement of profit and loss. The Group continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as and when needed.
- 47.** The erstwhile Tata Steel BSL Limited, now merged with the Company, was eligible under Package Scheme of Incentives, 1993 and 2007, accordingly as per the provisions of the Scheme it had obtained eligibility certificate from Directorate of Industries. As per the Scheme the Tata Steel BSL Limited has an option to defer the payment of sales tax for a period of fourteen years upto a specified limit (twenty-one years in case the specified limit is not availed in fourteen years). The said tax collected shall be paid after fourteen years in five annual equal instalments and has been recognised as deferred sales tax liability, which as at March 31, 2026 amounts to **₹34.25** crore (March 31, 2025: ₹30.78 crore). Post-introduction of GST, the Maharashtra government modified the scheme, whereby the Company needs to deposit the GST and claim refund of the same. During the year, the Company has recognised **₹17.51** crore (2024-25: ₹23.92 crore) as an income on account of such scheme.

NOTES

forming part of the consolidated financial statements

- 48. a)** The Board of Directors of the Company at its meeting held on July 31, 2024, considered, and approved the amalgamation of Rujuvalika Investments Limited ("RIL") into and with the Company, by way of scheme of amalgamation (Scheme). RIL is an investment company having investments in shares of listed and unlisted body corporates and in mutual funds. It is registered under Section 45-IA of Reserve Bank of India Act, 1934 as Non-Banking Financial Company ('NBFC') holding certificate of registration as NBFC. RIL, however, does not have any active operations as a NBFC.

As part of the Scheme, among other things, equity shares held by the Company in the RIL shall stand cancelled. No shares of the Company shall be issued, nor any cash payment shall be made whatsoever by the Company in lieu of cancellation of shares of RIL (being wholly owned subsidiary). The Scheme is subject to certain conditions, including approval from regulatory authorities and sanction of the Scheme by the Hon'ble National Company Law Tribunal ('NCLT'), Mumbai bench.

The amalgamation will ensure simplification of management structure, better administration and reduction/rationalisation of administrative and operation costs over a period of the time and elimination of duplication and multiplicity of compliance requirements.

- b)** The Board of Directors of the Company at its meeting held on March 17, 2026, considered, and approved the amalgamation of Neelachal Ispat Nigam Limited ("NINL") into and with the Company, by way of scheme of amalgamation (Scheme). As part of the Scheme, among other things, equity and preference shares held by the Company in the NINL shall stand cancelled. No shares of the Company shall be issued, nor any cash payment shall be made whatsoever by the Company in lieu of cancellation of shares of NINL (being wholly owned subsidiary). The Scheme is subject to certain conditions, including approval from regulatory authorities and sanction of the Scheme by relevant bench of the Hon'ble National Company Law Tribunal ('NCLT').

The amalgamation will ensure simplification of management structure, better administration and reduction/rationalisation of administrative and operation costs over a period of the time and elimination of duplication and multiplicity of compliance requirements.

- 49.** TM International Logistics Limited ('TMILL') is a 51:26:23 joint venture company between Tata Steel Limited, NYK Holding Europe B.V ('NYK') and IQ Martrade Holding Und Management GmbH ('IQ'), respectively.

The Board of Directors of the Company, on May 15, 2026, considered and approved the acquisition of 41,40,000 equity shares of face value ₹10/- each (23% equity stake), in TMILL, from IQ for a consideration of ₹335 crore, subject to necessary approvals. The Company has executed Share Purchase Agreement with IQ and TMILL on May 15, 2026. The transaction is subject to customary conditions precedent, and approvals from regulatory authorities including Competition Commission of India and other stakeholders, as applicable.

On completion of the above transaction, the Joint Venture Agreement dated July 26, 2001, between the Company and IQ, and the Deed of Adherence dated November 26, 2009, amongst the Company, TMILL, NYK, and IQ will be terminated and the Company will hold 74% equity shares in TMILL and NYK will hold 26% equity shares in TMILL.

- 50.** On November 4, 2025, the Company had signed an Asset Transfer Agreement with Indian Metals & Ferro Alloys Ltd. (IMFA) for the sale of its Ferro Alloy Plant at Jajpur, Odisha. Upon receiving of necessary regulatory approvals, the Company has successfully completed the sale on February 27, 2026 for a base consideration of ₹610 crore (net of GST and excluding working capital). Exceptional item in the consolidated statement of profit and loss for the year ended March 31, 2026 includes a gain of ₹322.08 crore on account of this sale.

- 51.** Tata Steel Netherland ("TSN") is a wholly owned indirect subsidiary of the Company. On December 19, 2024, the local Environmental Agency (EA) had sent a notice to Tata Steel Ijmuiden (TSIJ), a wholly owned subsidiary of TSN, on alleged non-compliances regarding certain aspects of the state of maintenance and continuing operation of its Coke and Gas Plant (CGP) 2 for which the EA gave TSIJ a period of 12 months to remedy the alleged non-compliances. TSN also received notices

NOTES

forming part of the consolidated financial statements

alleging non-compliance and orders under penalty based on the local EA's measurements of exceedances of emissions of substances versus certain prescribed limits for both Coke Ovens (CGP 1 and 2). The EA and the local Province of North Holland (Province) have issued a letter on April 23, 2026 to TSN, indicating their intention to revoke operating permits and trigger an early closure of CGP 1 and 2. TSN has made a detailed assessment and shared with the EA and the Province a timeline which is necessary to ensure a safe, responsible and controlled closure process. The timing, nature and contents of a decision that may be issued by the EA and the Province, is currently unclear. TSN is also exploring all options including legal recourse to ensure that the closure process is managed with due care and prudence. Given the significance of the CGP facilities to TSN's operations and the risks, challenges and uncertainties associated with the continued operations of both the CGP units, there exists a material uncertainty surrounding the impact of such adversities on the financial stability of TSN as an entity. The financial results of TSN as an entity have accordingly been prepared on a going concern basis while recognising the aforesaid material uncertainty.

TSN's plans for its integrated de-carbonisation and environmental improvement project are part of the non-binding Joint Letter of Intent executed with the Government of Netherlands and Province of North Holland in September 2025.

The financial results of Tata Steel UK ("TSUK"), a wholly owned indirect subsidiary of Tata Steel Limited, have also been prepared on a going concern basis, considering the UK Government funding being available under the Grant Funding Agreement (GFA) signed with the UK Government and a commitment to infuse equity into TSUK by the Company.

In view of the matters stated above, the Group has assessed its ability to meet any liquidity requirements of the Group, including at TSUK and TSN, as may be required, and concluded that its cashflow and liquidity position remains adequate.

- 52.** With effect from April 1, 2023, the Ministry of Corporate Affairs (MCA) has made it mandatory for every Company, which uses accounting software for maintaining its books of account, to use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Company uses multiple accounting software including SAP HANA Enterprise Resource Planning (ERP) software to maintain its books of accounts. Implementation of the above notification to ensure enabling appropriate audit log on financial tables in aforesaid SAP HANA, which have high frequency database operations would lead to a severe system performance degradation thereby adversely impacting business operations and users, besides requiring significant additional storage and supporting infrastructure.

With a view to address the above challenges while ensuring compliance with the MCA notification and mitigate the risks involved therein, the Company has appropriately designed and implemented alternate mitigating controls over direct change at database level.

Further, the audit trail, to the extent maintained in prior year, has been preserved by the Company as per the statutory requirements for record retention.

- 53.** During the year ended March 31, 2026, in respect of a subsidiary of the Company, managerial remuneration amounting to **₹0.31** crore has been paid in excess of the limits prescribed under section 197 read with Schedule V of the Companies Act, 2013. The excess remuneration has been duly approved by the Nomination and Remuneration Committee and Board of Directors of the subsidiary of the Company, and the same shall be placed for approval by the shareholders through a special resolution at the forthcoming Annual General Meeting of the subsidiary of the Company.

54. Dividend

The dividend declared by the Company is based on profits available for distribution as reported in the standalone financial statements of the Company. On May 15, 2026 the Board of Directors of the Company have proposed a dividend of **₹4.00** per Ordinary share of each ₹1 in respect of the year ended March 31, 2026 subject to the approval of shareholders at the Annual General Meeting. If approved, the dividend would result in a cash outflow of approximately **₹4,988.74** crore.
