

B. OPERATIONS

B1. Occupational Health and Safety

Risk	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate
	Tata Steel employs many workers and operates near communities such as Jamshedpur, Jmuiden, and Port Talbot. Ensuring safety is vital for the Company, given the hazards of steel production. Safety incidents harm employee health, morale, and Company's reputation. Poor safety processes or major incidents could result in government prohibitions and partial plant closures.	Tata Steel strengthens health and safety through robust governance, leadership oversight, digital and risk-based systems, and analytics. Enhanced process safety, asset integrity, contractor controls, compliance, emergency preparedness, and well-being programmes collectively advance zero-harm goals and ensure business continuity across operations. <i>For more details, refer to Section C, Principle 3, Essential Indicators, Question 12 in this report.</i>
Financial implications	Negative	

B2. Air Pollution/ Air Quality Management

Risk	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate
	Air pollution exceeding regulatory limits by any Tata Steel site may affect the health and safety of employees, workers, or the community, and result in environmental compensation imposed by regulatory authorities. Additionally, there can be financial loss due to stoppage of operation, withdrawal of the license to operate, and loss of reputation.	Tata Steel is committed to meeting environmental standards for clean air across locations. This involves deploying advanced pollution control, continuous modernisation, and rigorous operational excellence. Real-time monitoring, digital dashboards, AI-driven predictive modeling for pollution control, enabling a proactive shift from reactive to predictive environmental management to safeguard communities and ecosystems. TSN addresses air pollution by using available techniques, investments to cut emissions, and improvements across operations. Actions include de-NOx systems, dedusting, and optimised combustion, along with a shift to cleaner production pathways under the Green Steel Plan, supported by monitoring and regulatory compliance. At TSUK, Port Talbot's EAF applies advanced controls with continuous pollutant monitoring, while construction follows strict environmental management plans. Tata Steel Thailand lowers emissions through fume filtration, improved plant roofing, regular watering, and dust-control measures. <i>More details can be found in the Natural Capital section of Tata Steel's Integrated Report FY2025-26.</i>
Financial implications	Negative	

B3. Biodiversity

Risk	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate
	Regulatory risks and increased spending due to the requirements of forest diversion and other compliances and restoration of biodiversity loss.	Tata Steel Limited addresses biodiversity risks through a structured approach guided by its Biodiversity Policy and the Tata Group Aalingana framework, aligning conservation with business priorities. This is implemented through site-specific Biodiversity Management Plans, regulatory compliance, and collaboration with communities and authorities, alongside alignment with Taskforce on Nature-related Financial Disclosures ('TNFD') for transparency. TSN supports biodiversity through dedicated initiatives, mitigation measures under the Green Steel Plan, risk-based nitrogen management near Natura 2000 sites, reduction of emissions and disturbances, and responsible sourcing practices across the value chain. TSUK integrates biodiversity into operations by identifying, protecting, and enhancing habitats, while actively engaging stakeholders and communicating progress on conservation efforts. <i>For more information, refer to Tata Steel's Climate Change Report and the Natural Capital section of the Integrated Report FY2025-26.</i>
Financial implications	Negative	

B4. Research and Development/Technology, Product and Process Innovation

Opportunity	Rationale for identifying the risk/opportunity	Tata Steel's Initiative
	Tata Steel's commitment to R&D, new technologies, and innovation helps serve customers better, maintain leadership in differentiated products, and enter new markets. R&D and innovation also enhance cost competitiveness through improved process efficiency and resource utilisation. As Tata Steel aims for Net Zero emissions, the role of R&D becomes even more crucial in advancing low emission steelmaking technology.	Tata Steel Limited utilises technology and innovation to create a portfolio of value-added products and maintains a leading position in automotive and packaging steel segments. To accelerate its journey to become technology-driven organisation, Tata Steel has introduced the "TOP in Technology" Programme. The programme is intended to bring more synergy with business units to identify and prioritise critical projects, using a bottom-up approach to leverage employee and stakeholder creativity for impact in Process Excellence, New Product Development, Sustainability, and Mobility. <i>For more information, refer to Tata Steel's Intellectual Capital Section of the Integrated Report FY2025-26.</i>
Financial implications	Positive	

C. SOCIAL**C1. Supply Chain Sustainability**

Risk	Rationale for identifying the risk/opportunity	Approach to adapt or mitigate
	Tata Steel operates an extensive, integrated value chain covering mining, sourcing, manufacturing, logistics, warehousing, and distribution, handling over 100 million tonnes of materials annually, including iron ore, coal, and alloys. These activities are energy-intensive and contribute to greenhouse gas emissions and other environmental impacts, particularly across transportation and processing stages. Additionally, Scope 3 emissions from purchased goods and services form a substantial share of the Company's carbon footprint. Ensuring a responsible, low-emission, and socially compliant supply chain is therefore critical to business resilience, regulatory compliance, and stakeholder trust, while supporting Tata Steel's long-term Net Zero target and strengthening its overall sustainability performance.	Tata Steel adopts a structured, multi-level approach to manage environmental and social risks across its supply chain, supported by stronger emissions tracking and responsible sourcing initiatives. In India, Responsible procurement is strengthened through the Responsible Supply Chain Policy ('RSCP') under which 1,359 critical suppliers were assessed in FY2025-26 across ESG pillars, with compliant suppliers increasing by 14% year-on-year. Supplier assessments enable gap identification, joint action plans, and capability building. Emissions reduction initiatives span logistics and operations, with energy-efficient warehousing, green mobility, and renewable energy adoption. The Jamshedpur Central Warehouse became energy-positive and achieved the Indian Green Building Council ('IGBC') Net Zero Energy award, while EV penetration and efficient upgrades significantly reduced CO₂ emissions. Greener Steel Processing Centres and stockyards have expanded solar and rainwater harvesting coverage. Tata Steel advanced low-carbon logistics through biofuel and LNG shipments and expanded domestic CNG, LNG, and EV fleets to address Scope 3 emissions. TSN is strengthening its risk-based due diligence approach that integrates human rights, environmental protection and ethical business conduct into supplier management. This includes applying our Responsible Supply Chain Policy and Supplier Code of Conduct, engaging with suppliers of critical materials, participating in sector initiatives, and strengthening transparency and grievance mechanisms across the value chain. TSUK operates an integrated value chain from mining to finished steel and promotes environmentally and socially responsible supply chains through adherence to the Tata Steel Responsible Sourcing Policy and continuous BES 6001 certification to ensure sustainable sourcing and stakeholder trust. TSTH follows the TSTH Supplier Code of Conduct, outlining standards for ESG practices. This code supports suppliers in operating ethically and responsibly.
Financial implications	Negative	

C2. Employee Well-being and Development

Opportunity	Rationale for identifying the risk/ opportunity	Approach to adapt or mitigate
	Tata Steel focuses on employee well-being and development to boost satisfaction and engagement. This helps attract and retain top talent, creating a motivated workforce. A skilled workforce is key to achieving company objectives and industry impact.	Tata Steel has implemented innovative policies to foster employee relations, growth, and job satisfaction. Tata Steel provides excellent social security benefits for employees and their families. Employees frequently participate in learning programmes, and a comprehensive recognition framework. The Company nurtures a collaborative workplace built on trust and respect, promoting inclusivity. Also the organisation has rolled out multiple initiatives both locally and centrally to promote overall wellbeing of employees.

Financial implications Positive

C3. Community Support and Corporate Social Responsibility/Building thriving Communities

Risk and Opportunity	Rationale for identifying the risk/ opportunity	Approach to adapt or mitigate or Tata Steel's Initiatives
	Risk: Tata Steel has key sites situated near community areas. Maintaining a transparent and trustworthy relationship with the community is essential for Tata Steel to retain its social licence to operate. Opportunity: Engaging deeply with the community builds goodwill for Tata Steel, ensures public consent to operate, and brings long-term benefits such as community support, loyalty, future employees, and increased awareness of the Company's products and services.	Tata Steel India engages in various CSR initiatives focused on education, health, livelihoods, and infrastructure to improve the quality of life. The Company values collaboration, affirmative action, volunteerism, communication, and innovation in achieving its objectives. These initiatives aim to support marginalised groups, including women, girl children, and tribes, by incorporating their perspectives. TSN contributes to surrounding communities by engaging openly with local stakeholders, addressing environmental and social impacts of our operations, and investing in initiatives that support wellbeing and long-term regional development. Our approach combines transparent dialogue, accessible grievance mechanisms, targeted nuisance reduction measures, and collaboration on the Green Steel transition to create shared value for communities in the IJmond region and beyond. TSUK continues to support its communities during the transformation of Port Talbot through a long-standing community programme, delivering significant local impact via flagship sporting, youth, well-being, environmental, and employee led initiatives that benefit tens of thousands of people annually. <i>For additional information, refer to the Social and Relationship Capital Section of Tata Steel's Integrated Report FY2025-26.</i>

Financial implications Positive

Additional Disclosure

Tata Steel Nederland ("TSN") is a wholly owned indirect subsidiary of the Company. TSN continues to be deeply engaged with the local regulatory bodies on addressing the issues related to the IJmuiden operating site. Based on the local Environment Agency's measurements of exceedances of emissions of substances versus certain prescribed limits, TSN has received multiple notices alleging non-compliance and has paid more than €20 million of penalties in FY2025-26 in relation to the coke and gas plants. Many of these notices and penalties relate to exceedances in connection with the legacy coke and gas plant infrastructure, designed and commissioned 40-50 years ago. The unavailability of technically and operationally feasible solutions limits our capability to address the issue within the expected time frame. The Environment Agency and the local Province have also on April 23, 2026, issued a letter to TSN indicating their intention to revoke operating permits and trigger an early closure of the coke and gas plants. TSN has made a detailed assessment and shared with the Agency and the Province a timeline which is necessary to ensure a safe, responsible and controlled closure process. TSN is also engaged with the Regulators on evolving standards relating to classification and disposal of steel slag, where local requirements in the Netherlands exceed the EU standards.

SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

Policy and management processes

- 1 a. Whether your entity's policy/policies cover each principle and its core elements of the NGRBCs. (Yes/No)**
- Yes, Tata Steel strictly follows the National Guidelines for Responsible Business Conduct ('NGRBC') principles through a set of Board and management-approved policies. These policies cover all nine principles and their core elements, ensuring responsible business conduct. The Tata Code of Conduct ('TCoC') guides fair practices and ethics for the Company and its employees. Tata Steel Limited has implemented specific policies across operations for consistency and clarity. Subsidiaries, associates, and joint ventures also follow the TCoC, with key subsidiaries adopting relevant policies suited to their contexts. Below is a summary of Tata Steel's key policies aligned with the nine NGRBC principles.

S. No.	Tata Steel's Policies	NGRBC Principle

* Policies approved by the Board.

P1-Businesses should conduct and govern themselves with integrity and in a manner that is ethical, transparent, and accountable.

P2-Businesses should provide goods and service in a manner that is sustainable and safe.

P3-Businesses should respect and promote the well-being of all employees, including those in their value chains.

P4-Businesses should respect the interests of and be responsive to all its stakeholders.

P5-Businesses should respect and promote human rights.

P6-Businesses should respect and make efforts to protect and restore the environment.

P7-Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent.

P8-Businesses should promote inclusive growth and equitable development.

P9-Businesses should engage with and provide value to their consumers in a responsible manner.

Policy and management processes

b. Has the policy been approved by either the Board (Yes/No)	Yes, Tata Steel's governance framework ensures that key policies are approved by either the Board, or the CEO & MD of the Company, depending on the nature of the policy and regulatory requirements, if any. Accordingly, all policies of Tata Steel are approved by one of the above-mentioned authorities. The key policies approved by the Board and/or various Board committees are marked in the above table with asterisk mark (*). (Refer Section B, Question 1 a) The remaining policies of Tata Steel are approved by the CEO & MD of the Company.
c. Web-Link of the Policies, if available	The policies covering these principles are available on the Company's website under 'Our Policies' section. Link: https://www.tatasteel.com/corporate/our-organisation/policies/
2. Whether the entity has translated the policy into procedures. (Yes/No)	Yes, all policies of the entity have been translated into procedures, which are in various stages of implementation. Various executive committees designated with specific responsibilities have also been constituted for operationalising these policies, called Apex Committees and Sub-committees. These are chaired by either the Key Managerial Personnel or Senior Management Personnel of Tata Steel. Some key Apex Committees and Sub-committees of Tata Steel driving the implementation of Tata Steel's policies are listed below: 1. Apex Business & Human Rights Committee 2. Apex Safety Council 3. Apex Committee for Information Security Management 4. Apex Committee for Affirmative Action 5. Apex Risk Review Committee 6. Apex Ethics Committee 7. Ethics Committee
3. Do the enlisted policies extend to your value chain partner? (Yes/No)	Yes. Tata Steel's policies continue to extend to all value chain partners. With the introduction of the revised RSCP—which now consolidates and embeds the Tata Steel Business Associates Code of Conduct ('TSBACoC')—a unified set of governance expectations is applicable across the entire supplier ecosystem. Under this revised framework, all suppliers and business associates are required to formally commit to the RSCP at the time of onboarding and subsequently reaffirm their adherence through periodic assessments. The RSCP sets out minimum standards on Fair Business Practices, Health & Safety, Human Rights, Environmental Management, and Local Community Development, ensuring that value chain partners align with Tata Steel's ethical, environmental, and social performance requirements. This consolidated policy strengthens uniformity, enhances accountability, and ensures consistent responsible business conduct across the value chain.

4.	National and international codes/certifications/ labels/ standards (e.g., Forest Stewardship Council, Fairtrade, Rainforest Alliance, Trustea) standards (e.g., SA 8000, OHSAS, ISO, BIS) adopted by your entity and mapped to each principle.	NGRBC Principle

5.	Specific commitments, goals and targets set by the entity with defined timelines, if any.	Please refer to the ESG Goals section in Tata Steel's Integrated Report for FY2025-26.									
6.	Performance of the entity against the specific commitments, goals, and targets along with reasons in case the same are not met.	Please refer to the ESG Factsheet published in Tata Steel's Integrated Report for FY2025-26.									
Governance, Leadership and Oversight											
7.	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements	We are pleased to present the 4 th edition of Tata Steel’s Business Responsibility and Sustainability Report for FY2025-26. Sustainability continues to be deeply embedded in our strategy, operations, and culture, guiding our decisions across the value chain. Our ESG roadmap serves as both a direction-setter and an enabler, helping us respond to evolving challenges while building long-term resilience. During the year, we strengthened our commitment to decarbonisation as a conscious strategic choice, advancing from ambition to measurable impact through operational re-engineering, energy transition initiatives, and climate-smart technologies. Digitalisation, automation, and AI-enabled systems remained key levers in driving efficiency and sustainability-led transformation. Our social initiatives across education, healthcare, and skilling continued to create meaningful outcomes for communities, supporting inclusive growth and livelihoods. People remained at the centre of our journey, with sustained focus on safety, well-being, diversity, and inclusion. Robust governance practices anchored our ESG performance, reinforcing transparency, ethical conduct, and risk resilience. - T. V. Narendran, Chief Executive Officer & Managing Director, Tata Steel.									
8.	Details of the highest authority responsible for implementation and oversight of the Business Responsibility policy (ies).	The Board of Tata Steel Limited is the highest authority responsible for the oversight of the implementation of the Business Responsibility policies. The Chief Executive Officer & Managing Director of the Company is the highest authority responsible for the implementation of all policies in Tata Steel.									

9. Does the entity have a specified Committee of the Board/ Director responsible for decision making on sustainability related issues? (Yes/ No). If yes, provide details.	Yes, the Board of Tata Steel has established various committees responsible for sustainability-related policies: Corporate Social Responsibility and Sustainability Committee (CSR&S): Governs and reviews CSR and sustainability activities, recommends annual business plans, and monitors performance. Risk Management Committee: Oversees management of key risks, including strategic, financial, operational, sustainability, ESG, information security, and compliance risks. Ensures effective risk management practices. Stakeholders' Relationship Committee: Resolves grievances of shareholders, debenture holders, and other security holders, including issues with receipt of annual reports, securities transfer, and dividends. Safety, Health and Environment Committee: Oversees policies related to safety, health, and environmental performance across Tata Steel and its Group Companies. Audit Committee: Oversees the financial reporting process to ensure accuracy and transparency. Nomination and Remuneration Committee: Manages the nomination process, including succession planning, and assists with compensation responsibilities for Executive Directors, KMPs, and Senior Management. Additional information on the Board of Directors of Tata Steel and Committee members of all the Board committees of Tata Steel are provided on the Tata Steel website: https://www.tatasteel.com/corporate/our-organisation/leadership/
---	--

10. Details of Review of NGRBCs by the Company:

Subject for Review	Indicate whether the review was undertaken by Director/ Committee of the Board/ Any other Committee	Frequency (Annually/Half yearly/ Quarterly/ Any other - please specify)
Performance against the above policies follow-up action	The Senior Management of the Company regularly reviews the performance against various policies. The Company also shares the update of the key aspects of such reviews to the Board and various Board Committees.	On a continuous basis
Compliance with statutory requirements of relevance to the principles, and rectification of any non-compliances	The Company is in compliance with the existing regulations as applicable, except to the extent of disclosures made by the Company in terms of Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations, 2015, as amended and a Statutory Compliance Certificate on applicable laws is provided by the Chief Executive Officer & Managing Director/ Executive Director & Chief Financial Officer/ Company Secretary & Chief Legal Officer to the Board of Directors.	On a quarterly basis

11. Has the entity carried out independent assessment/evaluation of the working of its policies by an external agency? (Yes/No). If yes, provide name of the agency.

Yes, Tata Steel is rigorously evaluated through the Tata Business Excellence Model ('**TBEM**'), adapted from the Malcolm Baldrige National Quality Award Model. External assessors review its policies and execution, leading to the JRDQV Award and recognition as the Benchmark Leader in 2021. As a founding member of ResponsibleSteel™, Tata Steel is certified for its Jamshedpur, Kalinganagar, and Meramandali sites, promoting sustainable steel production. The Company consistently earns high scores in periodic external evaluations, including Risk Maturity and the Data and Analytics Target Operating Model ('**DATOM**') assessment, achieving a 3.8/5 "Synergised" score in 2022. Tata Steel also holds various certifications like ISO 14001:2015 and ISO 45001:2018. These accolades highlight Tata Steel's commitment to excellence and sustainability. *Section B Question 4 of this report includes a summary of certifications received by Tata Steel.*

12. If answer to question (1) above is "No" i.e., not all Principles are covered by a policy, reasons to be stated:

Not Applicable

SECTION C: PRINCIPLE WISE PERFORMANCE DISCLOSURES

Principle 1: Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable.

Essential Indicators

1. Percentage coverage by training and awareness programmes on any of the principles during the financial year:

Segment	Total number of training and awareness programmes held	Topic/principles covered under the training and its impact	% of persons in respective category covered by awareness programme
Board of Directors	Ongoing- Multiple trainings throughout the year	Orientation and awareness sessions for the Company's directors are regularly organised. These sessions cover Safety, Health, Environment, Strategy, Industry trends, Ethics & Governance, Sustainability and Legal & regulatory matters. These matters are also regularly discussed and deliberated upon in Board meetings, Board's Audit Committee meetings, and other Board committees. Details of orientation given to the new and existing Independent Directors are available at: https://www.tatasteel.com/media/25696/familiarization-programme-ids-2026.pdf	100
Key Managerial Personnel (KMPs)	Ongoing- Multiple trainings throughout the year	Regular awareness programmes are held for Tata Steel's KMPs, covering Ethics, Governance, Code of Conduct, and Policy Making. Tata Steel's KMPs are also present at key national and international forums, where they engage with their global counterparts and provide thought leadership in multiple areas.	100
Employees and Workers	Ongoing- Multiple trainings throughout the year	Tata Steel provides year-round training sessions on crucial topics like safety, the Tata Code of Conduct, anti-bribery and anti-corruption, conflict of interest, and prevention of sexual harassment, mandatory for all employees. Skill development is customised to job roles, covering areas such as domain-specific knowledge, safety, agile work methods, cybersecurity, quality control, data analytics, and sustainability. Also, this year, we strengthened our future ready workforce by delivering dedicated organisation wide AI training initiatives for all employees throughout the year. An online portal offers personalised learning modules for ongoing professional growth with technical and management courses. Additionally, Tata Steel organises leadership programmes for senior management on sustainable development, product innovation, organisational culture, adaptive leadership, and strategic planning, preparing leaders for business challenges. Also the organisation facilitates the Global Leadership Development Programme which is anchored in a design philosophy that emphasises deep reflection and immersive experiences, encouraging leaders to embrace openness and vulnerability.	100

2. **Details of fines/penalties /punishment/ award/ compounding fees/ settlement amount paid in proceedings (by the entity or by directors/KMPs) with regulators/ law enforcement agencies/ judicial institutions, in the financial year, in the following format. (Note: the entity shall make disclosures on the basis of materiality as specified in Regulation 30 of SEBI (Listing Obligations and Disclosure Obligations) Regulations, 2015 and as disclosed on the entity's website):**

	NGRBC Principle	Regulatory/enforcement agencies /judicial institutions	Monetary		Has an appeal been preferred?
			Amount (in INR)	Brief of Case	
Penalty/ Fine	-	-	-	-	-
Settlement	-	-	-	-	-
Compounding Fee					
			Non-Monetary		
Imprisonment	-	-	-	-	-
Punishment	-	-	-	-	-

Note: During FY2025-26, no fines or penalties were imposed on or paid by Tata Steel Limited which are breaching the materiality thresholds mentioned under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 [SEBI Listing Regulations]. In terms of SEBI Listing Regulations, fines paid during the year, that are below the materiality thresholds have been disclosed in the quarterly Corporate Governance Reports, prepared and filed with the Stock Exchanges in terms of Regulation 27 of SEBI Listing Regulations and the same are available on the website of the Company www.tatasteel.com.

Additional Disclosure

Tata Steel Nederland ("TSN") is a wholly owned indirect subsidiary of the Company. TSN continues to be deeply engaged with the local regulatory bodies on addressing the issues related to the IJmuiden operating site. Based on the local Environment Agency's measurements of exceedances of emissions of substances versus certain prescribed limits, TSN has received multiple notices alleging non-compliance and has paid more than €20 million of penalties in FY2025-26 in relation to the coke and gas plants. Many of these notices and penalties relate to exceedances in connection with the legacy coke and gas plant infrastructure, designed and commissioned 40-50 years ago. The unavailability of technically and operationally feasible solutions limits our capability to address the issue within the expected time frame. The Environment Agency and the local Province have also on April 23, 2026, issued a letter to TSN indicating their intention to revoke operating permits and trigger an early closure of the coke and gas plants. TSN has made a detailed assessment and shared with the Agency and the Province a timeline which is necessary to ensure a safe, responsible and controlled closure process. TSN is also engaged with the Regulators on evolving standards relating to classification and disposal of steel slag, where local requirements in the Netherlands exceed the EU standards.

3. **Of the instances disclosed in Question 2 above, details of the Appeal/ Revision preferred in cases where monetary or non-monetary action has been appealed.**

Case Details	Name of the regulatory/enforcement agencies/judicial institutions
NA	NA

4. **Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.**

Yes, Tata Steel has an Anti-Bribery and Anti-Corruption (ABAC) Policy, which is also endorsed by its group companies. Its main objective is to ensure that Tata Steel conducts its operations ethically and in line with applicable regulations to prevent fraud, bribery, and corruption. The policy applies to all individuals associated with Tata Steel, including employees, contractors, and partners. Awareness is raised through training programmes, and a Compliance Officer is appointed to ensure adherence to the policy and address compliance issues effectively.

The weblink of the policy: https://www.tatasteel.com/media/11802/1-abac-policy_final.pdf

5. Number of Directors/KMPs/Employees/Workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/corruption:

	FY2025-26	FY2024-25
Directors	Nil	Nil
KMPs	Nil	Nil
Employees	Nil	Nil
Workers	Nil	Nil

6. Details of complaints with regard to conflict of interest:

	FY2025-26		FY2024-25	
	Number	Remarks	Number	Remarks
Number of complaints received in relation to issues of Conflict of Interest of the Directors	Nil	-	Nil	-
Number of complaints received in relation to issues of Conflict of Interest of the KMPs	Nil	-	Nil	-

7. Provide details of any corrective action taken or underway on issues related to fines/penalties/action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest.

Not Applicable.

8. Number of days of accounts payables ((Accounts payable *365) / Cost of goods/services procured) in the following format:

	Tata Steel Standalone		Tata Steel Consolidated	
	FY2025-26	FY2024-25	FY2025-26	FY2024-25
Number of days of accounts payables	94	82	87	74

Note 1: As per the industry standards released by SEBI, cost of goods/services procured also includes capital expenditure made by the Company.

Note 2: Reasonable Assurance has been undertaken by Price Waterhouse & Co Chartered Accountants LLP, on the indicators in the table above for Standalone figures for FY2025-26. (highlighted in green)

Note 3: The increase in accounts payable days is primarily driven by higher accounts payables resulting from the scale-up of operations, revision in vendor payment terms and other operational reasons.

9. Openness of business: Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

Parameter	Metrics	Tata Steel Standalone		Tata Steel Consolidated	
		FY2025-26	FY2024-25	FY2025-26	FY2024-25
Concentration of Purchases	a. Purchases from trading house as % of total purchases	-	-	-	-
	b. Number of trading houses where purchases are made from	-	-	-	-
	c. Purchases from top 10 trading houses as % of total purchases from trading houses	-	-	-	-
Concentration of Sales	a. Sales to dealers/distributors as % of total sales	37	38	23	23
	b. Number of dealers/distributors to whom sales are made	1,385	1,661	1,579	1,835
	c. Sales to top 10 dealers/distributors as % of total sales to dealers/ distributors	29	25	29	21
Share of RPTs in	a. Purchases (Purchases with related parties / Total Purchases) - %	39	38	6	5
	b. Sales (Sales to related parties / Total Sales) (%)	14	13	5	5
	c. Loans & advances (Loans & advances given to related parties/Total loans & advances) (%)	2	44	3	6
	d. Investments (Investments in related parties/ Total Investments made) (%)	98	98	69	55

Note 1: There are no purchases from trading houses, in line with the definition of 'Trading House' in the industry standards issued by SEBI during the FY2025-26.

Note 2: For "Sales to dealers/distributors as % of total sales", "total sales" has been taken as "Revenue from Operations" as disclosed in Note 24 of Audited Standalone Financial Statements for the year ended March 31, 2026 in line with the Industry Standards Note on BRSR Core, issued by SEBI. There are only two distribution channels - Direct sales and Sales to distributors and for this indicator, sales to distributor has been considered as "Sales to dealers/distributors".

Note 3: For 'Sales (Sales to related parties/Total Sales)', Revenue from operations has been considered as disclosed in Note 24 of Audited Standalone Financial Statements for the year ended March 31, 2026.

Note 4: For loans & advances and Investments, closing balances disclosed in the Audited Standalone Financial statements for the year ended March 31, 2026 have been considered.

Note 5: Reasonable Assurance has been undertaken by Price Waterhouse & Co Chartered Accountants LLP, on the indicators in the table above for Standalone figures for FY2025-26. (highlighted in green)
